

THE NEWARK ADVOCATE

DISPLAY THE FLAG

WEATHER FORECAST.
Fair Saturday; warmer tonight in
east and south portion.

VOLUME 92—NUMBER 54

NEWARK, OHIO, FRIDAY EVENING, SEPTEMBER 14, 1917

TEN CENTS A WEEK

SWEDISH ENVOY
WAS MESSENGER
OF VON ECKHARDTCarried Messages From Ger-
man Legation In Mexico
City to Telegraph OfficeTRANSMITTED THEM AS
SWEDISH OFFICIAL MATTERWas Recommended By Eck-
hardt For Secret Decora-
tion By Kaiser

(Associated Press Telegram)
Washington, Sept. 14.—How Ger-
many's secret practice of using
Sweden's diplomatic service for
transmitting forbidden communi-
cations between German agents and
the Berlin foreign office, prevailed
in Mexico as well as in Argentina,
is revealed in a document published
by the state department which passed
between the celebrated Herr von
Eckhardt, German minister in Mex-
ico and the chancellor.

It discloses how Folke Cronholm,
charge of the Swedish legation in
Mexico practically acted as a mes-
senger boy for von Eckhardt, per-
sonally transmitting as his legation's
own dispatches, messages for the
German legation, even going to the
point of delivering them personally
at the telegraph office, and how von
Eckhardt recommended that a decora-
tion be secretly bestowed upon
Cronholm for his services.

As an added chapter to the story
of the recently-revealed intrigue in
Argentina, the disclosure gives a
hint of the nature of the evidence
in the government's possession of
Germany's illicit use of neutral
diplomats. The full extent of
this evidence may never be publish-
ed, but it is known to be complete
and this government's action in mak-
ing some of it public is not felt to
be directed so much at Sweden as to
ward further informing the world
at large of Germany's practices.

It does, however, raise some specu-
lation as to how the Stockholm
foreign office will explain it.

Stockholm has declared that
Baron Loewen, Swedish minister to
(Continued on Page 2, Col. 3.)

PROBE DEATH OF
ARTIST'S WIDOW
AT SISTER'S HOME

(Associated Press Telegram)
Fall River, Mass., Sept. 14.—Mrs.
Robert Dunning, widow of Robert
Dunning, an artist, was found dead
in bed in a room on the upper floor
of the home of her sister, Dr. Lucy
C. Hill, early today and Dr. Hill was
found unconscious from gas poison-
ing in the room on the first floor.
Dr. Hill was removed to a hospital
and is expected to recover.

Medical examiner Thomas F.
Gunning has ordered an autopsy per-
formed on the body of Mrs. Dunning.
Police inspectors in charge of the
case said they would not be able to
make much headway in their inves-
tigation until they had received a re-
port of the autopsy on the body of
Mrs. Dunning from the medical ex-
aminer, which was expected late to-
day. They said Dr. Hill might have
been the victim of an accident but
declined to offer a theory as to the
cause of Mrs. Dunning's death. There
was no trace of gas in the later's
room.

TRAITOROUS SLAV
SHOOTSELF WHEN
HE LEARNS OF FATE

(Associated Press Telegram)
Petrograd, Sept. 13, Thursday—
10 p. m.—After being received by
Premier Kerensky at the winter pal-
ace and informed of the fate which
awaited him, General Korniloff, com-
mander of the Korniloff troops
which were sent against Petrograd
returned to his lodgings tonight and
shot himself. The general's wounds
were not fatal.

INSPECTOR KILLED;
ARREST 3 SUSPECTS

(Associated Press Telegram)
Cleveland, Sept. 14.—Three men
were arrested today and are being
held as suspects in connection with
the killing last night of Fred Curtis,
an Erie railroad car inspector.
Police say a signal from a hand
flashlight fired by Curtis cut off his
view. The revolver with which
he was shot has been found. Police
believe his death was planned by a
gang of car thieves.

ASK FEDERAL INTERVENTION.
San Francisco, Sept. 14.—A
threatened strike involving twenty-
five unions affiliated with the Iron
Trades Council of San Francisco
and affecting approximately 24,000
men has been put up to the federal
government so far as the California
Metal Trades Association is con-
cerned, it was announced here. The
strike is set for Monday. Consider-
able government ship building would
be affected.

IS IN A TIGHT
PLACE JUST NOW

Foreign Minister Lindman of Sweden.

Foreign Minister Lindman is un-
enviably situated now that his na-
tion's duplicity has brought it to the
brink of war. The use of Sweden's
diplomatic mail as an avenue for in-
formation to Berlin from Argentina
at a time when she professed neu-
trality threatens to bring Sweden to
war with the allies.

ITALIANS GAIN
GABRIELE CREST
EMBASSY SAYS

(Associated Press Telegram)
Washington, Sept. 14.—Italian
troops have taken from the Austro-
Hungarians the fortified hill of Dol
and the Gartner basin and now oc-
cupy the slope and top of Monte San
Gabriele after severe fighting. The
Italian embassy in announcing the
capture today, said it is the greatest
victory gained by the Italians since
their entrance into the war.

Capture of all Austro-Hungarian
positions of Monte San Gabriele is
expected to be a matter of hours.
The fighting in the region of the
forest of Tauer was very severe, as
the Austrians had assembled an enor-
mous force of artillery there. The
positions there were taken by in-
fantry attack at heavy cost to the
Italians.

The battle has been raging for 20
days. Last week the Austrians
changed from defensive and began
an offensive, using masses of their
best troops against the Italian posi-
tions. The loss of San Gabriele will
mean for the Austrians, the embassy
says, the loss of all the vantage
points against the Gorizia plain and
the Frigidio valley.

COWBOY FINDS \$400,000
GOLD HIDDEN IN TREE

(Associated Press Telegram)
Phoenix, Ariz., Sept. 14.—The dis-
covery of \$400,000 cached in an out-
let of the way spot in the hills of Gra-
ham county, this state, is reported by
H. K. Whitman, of Solomonville,
who is now in Chandler near here.
The discovery was made by Joe Wal-
sey, a cowboy, who while hunting
stray cattle came upon an iron box
secreted in a tree trunk. Its con-
tents consisted of old Spanish gold
vessels.

The gold has been taken to Saf-
ford, seat of Graham county, and
placed in security, according to
Whitman. It is believed that Wal-
sey discovered a hiding place of
priests who left the section about 75
years ago.

AMERICAN PRESS ASSO.
BOUGHT OUT BY W. N. U.

(Associated Press Telegram)
Columbus, O., Sept. 14.—Officials
of the Columbus branch of the Ameri-
can Press Association, the largest in
Ohio, said today that they had re-
ceived notification that the Western News-
paper Union had arranged for the
purchase of the plate and matrix busi-
ness of all 18 branches of the asso-
ciation. The transfer of business
takes place today.

The Columbus branch covers all
of Ohio, parts of West Virginia and
Kentucky. Albert Berner has been
general manager of the Columbus
branch for many years. No change
in office personnel or policy is ex-
pected by the local officials.

DAYTON BALL PLAYER
DIES OF HIS INJURIES

(Associated Press Telegram)
Champaign, Ill., Sept. 14.—Ray
Spencer, Dayton Central League ball
player, died in a hospital here last
night from injuries received on Au-
gust 23 in a wreck on the Big Four
Railroad at Mansfield, Ill.

WILL DRAFT STRIKERS.
(Associated Press Telegram)
Seattle, Wash., Sept. 14.—Ship-
yard workers who have been granted
exemption from the army draft on
industrial grounds who strike today
in obedience to the strike call, will
be automatically certified for ser-
vice, it was announced late last night
by the district board and Albert
Moody, chief of registration in the
state of Washington.

NEW MINISTER IS
GIVEN PLACE IN
FRENCH CABINETPortfolio Missions Abroad is
Established By Pain-
leve's OrganizationVIVIANA AND THOMAS ARE
NOT GIVEN MINISTRIESUnified Socialists Who De-
stroyed Two Ribot Cab-
inets Not Represented

(Associated Press Telegram)
Paris, Sept. 14.—The new French
cabinet contains a new ministry, at
first called the ministry of propagan-
da but later changed to minister of
missions abroad. Owing to the ab-
sence of Franklin Bouillon the new
post is not listed with the other
ministry designations in the official
journal. The new ministry consists
of fifteen titular ministers, four
ministers of state and eleven under
secretaries.

The new ministers are divided
among five senators, eleven depu-
ties and two, Louis Loucheur and
Albert Clavelle, do not belong to
parliament. The eleven undersec-
retaries are all members of the
chamber of deputies. Sixteen of the
new cabinet members have been
ministers or under secretaries in
former cabinets.

The political groups represent-
ed in the new ministry do not
include the unified socialists. Pre-
mier Painleve represents the social-
ist-republican group, while the so-
cialist-radicals have three members;
the radical left three, the republican
union of the senate two, the republi-
can union of the left one, and the radical
republican union seven members.
Seven members of the Ribot minis-
try retain places in the new cabinet.
The most noted perhaps of the
Ribot ministry to go are Rene Vivian-
t and Albert Thomas.

The Ribot ministry failed late
Sunday night when M. Thomas
withdrew and Professor Paul Pain-
leve followed him, being unwilling
to remain in a cabinet where the
unified socialists were not repre-
sented. (Continued on Page 2, Col. 1.)

TEACHERS' PAY IS
TOO LOW; SHORTAGE
OF HELP IS RESULT

(Associated Press Telegram)
Cleveland, Sept. 14.—Cleveland
public schools are confronted with
a "most serious crisis" in the ability
of school officials to obtain a suf-
ficient number of competent elemen-
tary teachers, according to School
Superintendent Spaulding.

To relieve the situation Dr.
Spaulding will go before the board
of education at an early date and
recommend an increase in salaries
for elementary teachers.

"Salaries of teachers are so low,"
Dr. Spaulding said, "that the school
cannot compete with industrial and
commercial concerns in obtaining
the services of teachers."

German will be taught in only
eleven of the city's ninety-eight el-
ementary schools this year, and will
be confined to those pupils of the
eighth grade who studied it last year
and whose parents wish them to con-
tinue the course. Last year there
were German classes in fifty-three
elementary schools.

PRESBYTERIANS URGE
DIVINITY MEN TO FIGHT

(Associated Press Telegram)
Philadelphia, Sept. 14.—The board
of education of the Presbyterian
church has taken action asking min-
isterial candidates to waive exemp-
tion for military service, believing
"it is neither wise nor patriotic"
to take advantage of the exemption
provisions. Although the army bill
exempts theological or divinity stu-
dents who have actually entered up-
on their course from the draft, the
board recommends that unless they
are compelled to seek exemption un-
der some other provisions of the act
they waive exemption relating to
their calling as future ministers of
the gospel.

This stand, the board adds, "rep-
resents the spirit of loyalty on the
part of the Presbyterian church."

ISSUES REQUISITION.
(Associated Press Telegram)
Columbus, Sept. 14.—Governor
Cox today issued a requisition for
George W. Gerbich, an actor whose
stage name is Richard Gordon, who
is in Chicago but who is wanted in
Cleveland for failure to support his
children.

SILVER \$1 OUNCE.
New York, Sept. 14.—Bar silver,
which, due to war conditions, has
been for several months rapidly ad-
vancing in price today sold at \$1.00
an ounce. It was quoted at \$1.005
which is 1-8 cents over yesterday's
price.

AGED MAN KILLED.
Springfield, O., Sept. 14.—An
aged man, who lost his life under
the wheels of a train yesterday, was
identified today as Karl Vierling,
aged 95. He had wandered away
from his home here yesterday and
was run down by a Big Four train.

U. S. BOYS NEAR BATTLE FRONT IN FRANCE
AWAITING EAGERLY THEIR FIRST ACTION

American regiment reviewed behind the battle lines in France (above) and the first American contingent training in French trenches.

The first vanguard of American soldiers in Europe has been training in the rear of the battle lines and is impatient now for its first taste of real action. Within sound of the big guns the American boys are being groomed for "over the top." The Americans are quartered with a French division, the Chasseurs Alpins, better known to the Americans as the "Blue Devils," who are giving the Sammys tuition in the art of trench warfare.

NO EQUIPMENT FOR
LICKING SOLDIERS
AT CANTONMENT

(Associated Press Telegram)
Chillicothe, O., Sept. 14.—A per-
manent battle ground built precisely
as are the European battlefields,
will be constructed at Camp Sher-
man for the training of Ohio con-
script troops, according to an an-
nouncement today. A condemned
rifle range three miles from camp,
which was found to be inadequate
for practice with small arms, will be
utilized for the battlefield. Major
Eric C. Wood will have charge of
all instruction.

Because of lack of equipment, in-
cluding guns, field artillery and
heavy artillery units have not been
assigned a definite program of work
thus far. In the emergency some
units have been supplied with old
and carriage running-gears from
which imitation caissons have been
built for preliminary practice in
these branches. Licking county
drafted men were assigned to the ar-
tillery section.

After one week in camp the men
of the first quota—2200 of them—
have made great progress. They are
in fine fettle, good health, and are
rapidly taking on a rozenen hu et hat
is making them look daily more and
more like soldiers. Regular army
officers declare they are quicker to
learn than any men they have ever
handled.

GOV. LOWDEN TALKS
WITH LEADERS OF
SPRINGFIELD STRIKE

(Associated Press Telegram)
Springfield, Ill., Sept. 14.—In an
effort to settle the strike here, in-
volving approximately 8,000 men
and women and a score of trade,
Governor Lowden this morning called
into conference members of the gen-
eral strike committee.

Adjutant General Dickson was a
party to the conference.
Labor leaders reiterated today
that the wholesale walkout is the di-
rect result of the action of police
and military authorities last Sunday
in breaking up a parade of unionists
who planned a demonstration in
support of street car strikers.

Dairy workers have been in-
structed to continue at work in order
to prevent suffering among babies.
Members of the typographical
union have been holding meetings
daily and are threatening to go out.
Telephone operators who showed
uneasiness yesterday are said today
to be showing a disposition to con-
tinue at work.

URUGUAY PLACES
ARMED GUARD ON
GERMAN VESSELS

(Associated Press Telegram)
Montevideo, Uruguay, Sept. 14.—
Uruguayan marines today boarded
all the German ships in the harbor
here, the government having heard
of plans to sink the vessels.

BANK CLERK SUICIDES.
Springfield, O., Sept. 14.—Frank
Nelson, bank employee, who shot
himself in the chest last Sunday,
died at the city hospital today. He
had been in ill health for several
weeks.

SENATE ATTEMPTS
TO DODGE ACTION
ON INSURANCE BILL

(Associated Press Telegram)
Washington, Sept. 14.—Plans for
adjourning congress without senate
action on the soldiers' and sailors
insurance bill were much disar-
ranged today by an authoritative
announcement that President Wil-
son would insist that the measure
become law before congress quits.
There is strong sentiment in the
senate for closing up business and
letting the bill wait for the Decem-
ber session. The question will be
taken up with the President when
he returns from his yachting trip.

ARTILLERY UNITS
TO BEAT INFANTRY
TO FRENCH FRONT

American Training Camp in
France, Wednesday, Sept. 12.—
American guns are booming in
France, booming under the eyes of
observation balloons with airplanes
to trace each singing champagne shell,
each missile of high explosive de-
structiveness.

Thus far the guns have not been
turned against the enemy, but there
is every likelihood that the artillery
will beat the infantry to the front.
For it is planned to complete the in-
tensive training of the gunners un-
der actual battle conditions.

While the plans of the American
commanders are not divulged, it
would seem logical from a military
standpoint that after the artillery
has completed several weeks of train-
ing at the front in conjunction with
the French infantry and supporting
guns, the greater part of it would
be withdrawn for maneuvers with
the gradually multiplying American
infantry.

The co-operation of artillery and
infantry is so close under modern
battle tactics that it is essential they
should be trained to act together al-
most as one unit.

TRIED TO SNEAK LEAD
TO GERMANY IN FORM
CAPS ON WIRE NAILS

(Associated Press Telegram)
New York, Sept. 14.—Accidental
discovery that wire nails in a con-
tainer for Sweden were covered
with lead caps caused the custom
authorities today to hold up a ship-
ment of 300 cases of the nails. The
smashing of one of the cases by a
smashing truck on a Brooklyn pier
led to the discovery. It was said
there was enough lead on each nail
for the manufacture of a rifle bullet,
and that the application for shipping
license contained no mention of the
lead, simply stating that the cases
contained wire nails.

The cases have been standing on a
dock for about three weeks. The in-
vestigation will seek to determine
whether the lead was placed on the
nails as a subterfuge to get needed
war material to Germany or whether
it was there for some legitimate pur-
pose. The lead caps are described
as fitting loosely and easily remov-
able.

DEMAND FOR FOOD
NEXT YEAR WILL BE
LARGER THAN EVER

(Associated Press Telegram)
Philadelphia, Sept. 14.—Many
phases of the food supply of the
world are under discussion at the
annual meeting of the American
academy of political and social sci-
ence which opened here today. Men
and women actively interested in the
present food problems and govern-
ment officials charged with the du-
ties of increasing and controlling
the food supply are to read papers
during the meetings. Fridtjof
Nansen, member of the Norwegian
mission now in this country, is ex-
pected to address the meeting to-
night on the food situation in Nor-
way and members of the Japanese
mission will also speak at one of the
sessions before the meeting adjourns
finally.

Among the papers read today was
one prepared by Charles Lathrop
Pack, president of the National
Emergency Food Garden commission
of Washington in which he declared
that \$350,000,000 worth of produce
has been raised this year in war gar-
dens and that housewives have can-
ned at least 400,000,000 jars of veg-
etables and fruits.

"Next year profiting by their ex-
perience of this year," Mr. Pack
said, "housewives will can, I believe,
millions more, and more will be
needed for I wish to emphasize now
the fact that there will be greater de-
mand for food exportation next year
than there has ever been before and
we must fill this demand."

AMERICAN SHIP

CREW IS LANDED

(Associated Press Telegram)
London, Sept. 14.—The American
ship Wilmore was sunk by a German
submarine on Sept. 12, according to
announcement today by the British
admiralty. All the members of the
crew of the vessel were saved. No
further details have been secured.

LOCOMOTIVES IN CARGO.

(Associated Press Telegram)
New York, Sept. 14.—The Wil-
more was a steamship of 5,339 gross
register, built in 1914 at Quincy,
Mass., and was formerly known as
the Atlantic. She sailed under com-
mand of Captain James Brewer from
Philadelphia August 26 with a cargo
of coal, locomotives and crude oil
for a French port. Her owner was
the Berwind White Coal company of
New York. She was armed.

AMERICAN FLYER
KILLED; AIRPLANE
MOTOR STALLED

(Associated Press Telegram)
Paris, Sept. 14.—Corporal Meek-
er, an American aviator, was killed
at Pau on Tuesday in an airplane
accident due to his motor stalling.
The Herald announces today.

Attached to the Lafayette flying
squadron in France is William
Henry Meeker, formerly of the Har-
vard Crimson, who sailed from New
York in May to join the aviation
forces in France and whose arrival
at Bordeaux was reported on May 31.

SPECIAL BOARD

tion of Cabinet

(Associated Press Telegram)
Petrograd, Sept. 14.—The pro-
visional government, according to
the Russian official news agency,
has sent an extraordinary special
commission to the Russian army
headquarters in the field to investi-
gate the Korniloff affair.

ADVOCATES HEAVY PENALTY.

(Associated Press Telegram)
Washington, Sept. 14.—General
Korniloff's punishment seems one of
the points concerned in the forma-
tion of a new cabinet. Unofficial
reports reaching here today indi-
cated that Premier Kerensky was
determined to inflict a heavy penalti-
ty as a warning against future up-
risings, but certain elements of the
constitutional democrats and even
many leaders of the council of
workmen and soldiers delegates,
Kerensky's closest political friends,
advocate leniency.

It is considered probable that one
early move of the new government
may be to abolish the duma which
has given some evidence of favoring
return to the monarchy and has
opposed many democratic reforms
of the revolution. The taxalists
or Bolsheviks, a radical anarchistic
group, probably will continue to re-
ceive governmental recognition.

RESTORING TRAFFIC.

Petrograd, Thursday, Sept. 13, 7

considered formally ended only
after the announcement that General

and are attempting a new process
of reconstruction.
The provisional government actu-
ally is taking necessary measures to
(Continued on Page 11, Col. 3.)

MILITARISM IS A
GERMAN NECESSITY
STRESEMANN SAYS

(Associated Press Telegram)
Amsterdam, Sept. 14.—"Only fools
believe we shall ever give up Riga,"
explained Dr. Gustav Stresemann,
national liberal member of the re-
flecting, in addressing the crowd at a
national liberal meeting in Berlin
yesterday.

Dr. Stresemann made a further at-
tack upon President Wilson's reply
to Pope Benedict's peace note. He
took up the different points suc-
cessively and defended German militar-
ism as a necessity on the ground of
the empire's geographical position.

Peace said Dr. Stresemann, had
not been brought nearer by the de-
cision of the reichstag majority re-
corded in the adoption of its resolu-
tion. The sword alone could bring
peace, he declared. "The furor Ten-
tentious should not be wasted on in-
ternal matters but should be directed
at the foe outside, he argued."

The meeting which repeatedly
greeted Dr. Stresemann's militant
utterances with loud applause, tele-
graphed to Emperor William a mes-
sage similar to those that have been
recently sent from various such meet-
ings.

WHEAT SHORTAGE AT
MILLS ACUTE; ASK
GOVERNMENT HELP

(Associated Press Telegram)
Toledo, O., Sept. 14.—Flour mills
here, turning out 44,000 barrels of
flour and consuming 220,000
bushels of wheat weekly, may be
closed within a few days on account
of wheat shortage. Flour millers
here have placed requisition with
Mark Mennel, government mill dic-
tor for the Ohio valley, for more
wheat. It is reported that many
farmers who have received high
prices for other products and do not
need cash are storing wheat.

UNION SHIPBUILDERS
STRIKE FOR SHORT HOURS

(Associated Press Telegram)
Seattle, Wash., Sept. 14.—Union
officials expect 7500 men to go on
strike here today—5000 in the ship-
building industry, and 2500 in the
regular carpenter and building trades
work of the city. The strike order
came yesterday as a climax to the
battle of organized labor to enforce
the eight-hour day standard in im-
portant and shingle mills. Union work-
ers have been called off of every con-
tract where lumber manufactured in
10-hour plants was being used, union
leaders said.

INSURANCE BILL GOES TO SENATE AS PASSED BY HOUSE

(Associated Press Telegram)
Washington, Sept. 14.—Containing provision for equal compensation to dependents of enlisted men and officers, the administration's soldiers and sailors insurance bill went to the senate today following its passage by the unanimous vote of the house last night. Senate consideration of the bill probably will begin immediately after the war credits bill is disposed of.

The main purposes of the bill are to provide a substitute for the present pension law as it would apply to men engaged in this war, a new system of allotments and compensations which will provide for dependents of the soldier and rehabilitate men upon their return from the war.

Upon the enlistment, soldier or sailor would be entitled to take out from \$1,000 to \$10,000 worth of optional insurance at approximately \$5 per \$1,000. His dependents would be entitled to allotments from the government of from \$5 to \$50 per month and an equal amount up to \$15 a month from his pay.

Death or total disability resulting, the dependents of any person in the military or naval service, including women members of the nurse corps, would be entitled to compensation ranging from \$20 to \$70 a month and the insurance.

In case of total disability the injured persons would be paid from \$40 to \$100 a month.

Elimination of the committee compensation provisions came unexpectedly. No serious opposition to them was promised until Representative Black of Texas suddenly began assailing the salary basis as a most undemocratic thing to impose upon an army fighting for democracy. He quickly won supporters, and his proposal to equalize the benefits of all classes was adopted almost unanimously. Representative Alexander of Missouri opposed the Black amendment on the ground that a family should benefit from the death or disability of their support in accordance with his earning capacity.

The new rates per month adopted were: Widows, \$35; one child, \$45; two children, \$52.50, and an additional \$5 for each child up to four.

One motherless child, \$20; two, \$35; three, \$45, and \$10 additional for each child up to five.

A widowed mother would receive \$30 a month, and no family allowance would exceed \$75 a month. Under the original draft of the bill the compensation for officers' dependents might have gone as high as \$200 a month.

A widow's compensation would cease upon her remarriage and a dependent child's would cease at 18 years of age.

Monthly benefits to a soldier or sailor in case of total disability, would be as follows:

If he has neither wife nor child living, \$40; wife \$55; wife and one child \$65; two or more children \$75; no wife but one child \$50 and \$10 additional for each child up to two; dependent widowed mother \$40 additional.

A man losing both feet, hands or eyes would be entitled automatically to \$100 per month.

Amendments adopted would give claimants 10 years instead of one in which to file their claims for compensation, prevent divorced wives who have remarried from sharing in a dependent's allowance and eliminate proposed salary increases for present employees of the government who are to administer certain provisions of the measure.

NEW MINISTER IS GIVEN PLACE IN FRENCH CABINET

sented. Professor Painleve's first combinator met the same fate late Tuesday night when the unified socialists also refused to cooperate with him principally because of his attitude toward the war. As President Poincaré insisted on Professor Painleve continuing his effort to form a ministry he resolved on Wednesday not to give the socialists representation. At the last moment a new obstacle arose when some thirty members belonging to the socialist radical group, which numbers 170 in all, being the largest in the chamber of deputies, after a meeting sent a delegation to Professor Painleve to inform him they opposed the creation of ministers of state, and to claim the ministry of the interior or justice for the groups president, Louis Renault. Instead of the ministry of state which had been offered to him. Eliminating ministries of state would have meant the dropping of Louis Barthou, to whom there has been much opposition since he introduced three years ago the military service bill. The group's protest was transmitted to Renault, Daniel Vincent, Rene Besnard, Andre Renard and Maurice Long, while they were present at a preliminary meeting of the new cabinet suspended its sittings to allow Renault and other socialist radicals to go to the chamber of deputies to meet their partisans. Renault alone submitted to the group's resolution, the other members of the party, that having pledged their word to Professor Painleve they were unable to withdraw. They returned to the preliminary cabinet meeting, thus allowing Professor Painleve to complete his combination. Jean Dupuy abandoning the portfolio of agricultural

ADVOCATE BY MAIL \$3 YEAR OCT. 1ST

Beginning October 1st, 1917, the mail subscription rate for The Advocate will be as follows:

One month \$3
Three months \$1.00
Six months \$1.75
One year \$3.00

All mail subscriptions are payable strictly in advance and names are taken from the mailing list at the expiration of subscription. Up to October 1st The Advocate will accept mail subscriptions at the rate of 25 cents a month or \$2.50 a year but beginning October 1st the new schedule will be in effect.

ture to take the place left vacant by Renault. These events are expected to show that the new ministry will start life without the assurance of active support from the unified socialists. The role played by the unified socialists throughout the crisis is generally condemned by the press as comparable to that of the workmen's and soldiers' delegates in Russia.

The new French ministry formed by Professor Paul Painleve who, in addition to becoming premier, will continue to act as minister of war, follows: Foreign affairs, Alexander Ribot; minister of justice, Raoul Peret; minister of the interior, Jules Steeg; minister of the marine, Charles Chaumet; minister of munitions, Louis Loucheur; minister of finance, Louis Lucien Klotz; minister of colonies, Rene Besnard; minister of transports, Albert Clavelle; minister of education, Daniel Vincent; minister of labor, Andre Renard; minister of commerce, Etienne Clementel; minister of agriculture, Bernard David; minister of provisions, Maurice Long; minister for missions abroad, Franklin Bouillon.

Four ministers of state who also are members of the war council, are: Louis Barthou, Leon Bourgeois, Paul Doumer and Jean Dupuy. Under secretary for medical services, Justin Godart; under secretary of aviation, Jacques L. Dumesnil; under secretary for munitions, J. L. Brette; under secretary of general administration, M. Morier; under secretary for military justice and pensions, Pierre Masse; under secretary of the interior (in charge of inventions), Victor Peytral; under secretary of finance, Paul Rouerely; under secretary of commerce, Paul Morel; under secretary of merchant marine and transports, M. Demonce; under secretary of blockade, Albert Metin; under secretary for fine arts, Albert Dallmire.

Official Statements of War Department

FRENCH.

(Associated Press Telegram)
Paris, Sept. 14.—A German attack against the French positions on the Casemates plateau in the Aisne region last night was repulsed after hand-to-hand fighting, the French war office officially announced today.

GERMAN.

(Associated Press Telegram)
Berlin, Sept. 14, via London.—German "shock" troops yesterday penetrated as far as the second French line west of Guignecourt, on the Aisne front and inflicted heavy losses on the defenders, according to official statement issued today by the German war office.

In Flanders the artillery battle increased to drum fire, the announcement adds, but no English attack developed.

The German general staff reports that on the night of Sept. 12-13 the British were driven from the wooded section north of Langemarck on the Belgian front, and that numerous Englishmen were taken prisoners.

WEST NEWARK PASTOR TO ADDRESS LEMERT POST

At the open meeting of Lemert Post, G. A. R., Sunday, at 2 o'clock, the following program will be rendered:

Bugle calls—Robert Howell.
Address—Rev. J. W. Atkinson, pastor of Neal Avenue M. E. church.

Patriotic talks.
Music.

TYPHOON IN CHINA.

(Associated Press Telegram)
Washington, Sept. 14.—A typhoon at Amor, China, severely damaged the American consulate and killed many natives, the state department today was advised. No foreigners were killed.

RELEASE SLACK COAL.

(Associated Press Telegram)
Columbus, Sept. 14.—States authorities today asked the federal coal bureau to order the release of large quantities of slack coal to be found in northern Ohio to industrial plants and public utilities in that part of the state.

RUSS NAVAL MISSION.

(Associated Press Telegram)
Washington, Sept. 14.—The Russian naval mission, headed by Vice Admiral Kolthoff, conferred today with American naval officers on technical problems which the Russians have solved in three years of war. Next week the mission will visit the naval academy, Hampton Roads, New York, and Newport, R. I.

Marriage Licenses.

Jacob Amspaugh, 56, Perry township, and Mrs. Mary J. Siddon, 47, Tappan, O. Rev. A. B. Cox named to officiate.
Brice Casteel, 22, of Mary Ann township, and Bertha Wright, 18, Perry township. Rev. R. E. Carman named to officiate.

23127 for Reporter.

HERE ARE NAMES OF NEWARK MEN WHO DEPART THURSDAY

The names of the seventy-four men from Newark who will go to Camp Sherman, Chillicothe, Thursday, September 20, have been selected with eleven alternates. The orders for mobilization of the men were received today, and they will be called to report, September 19, and held subject to reporting September 20, under military law.

The same plan will be carried out as was used with the first five per cent. The 74 Newark men with the 62 from Licking county will leave Newark on the 1:45 B. & O. train for Columbus Thursday afternoon. They will arrive in Columbus at 2:30 where a special train will leave Columbus at 2:40 arriving at Camp Sherman at 5:30 o'clock.

The men to leave Newark Thursday from the city are:

Carl Handel, Herschel Andrew Thompson, Reamer Grush Gellan, George Crawford Allen, Raymond Billman Carey, John Thomas Muller, James R. Stewart, John Wm. Howard, Charles F. Powell, Costa Triffan, Emmet F. Claggett, Alfred Oberfield, Thomas Flannigan, Thomas Arthur Keyes, Edw. L. Waters, as Wm. Henry Mulliken, L. Cromwell, George Albert Coyle, John Samoilio, Vincent Joseph Carr, Ralph Bowers, Geo. Jno. Brennan.

Willis J. Handel, Howard T. Balzer, Alvin Thompson John, Russell Harvey, Hugo Thurner, Wilford S. Judy, Francis Haban, J. Bernard Kates, Wesley Miller, Teofon Vataca, Earl Wm. Binder, Tomas Naki, David Loar, Wm. Henry Stach, James McK, Sensabaugh, Nicodemus Bucamean, Leo Thomas Prior, Philip Cassilla, Herman Wallace Allison.

Ray Jacob Looker, Frank Hayes O'Shaughnessy, Ustace L. Collins, Edgar Wm. Turner, John Jacob Kappes, August Philip Butler, Stephen Francis Costello, Leslie Owens Owens, Silvester Andrew Adam, Francis Peter Zipperer, Wilbert Fry Hoffman, Lewis Stephen Place, Ruby Blizzard, Triton Vidnot, John Thomas Mills, George Klaus, John King.

Alternates—Merrill Trenton Kemp, Ralph Adkins, Richard G. Shafer, Merle Thompson Orr, Louis Whetzel Jones, Oren J. Stickle, Emory Roy Mazingo, Wm. Pyle Matthews, Maurice F. Floyd, Tode Bego, Paul Conn.

The following men made claim for exemption with the appeal board at Columbus today: George Edward Miller and Carlos Edmond Lehman, married since June 5, and William Darriett Block, on physical grounds.

SWEDISH ENVOY WAS MESSENGER OF VON ECKHARDT

(Continued From Page 1)

Argentina, transmitted messages for Count Luxburg the German charge there without knowing their contents. Whether the same defense will be made for Cronholm is not known; he is no longer in the Swedish diplomatic service. The interesting point in the minds of officials and diplomats here is how much the Stockholm foreign office knew of the affair.

Von Eckhardt's letter to the German chancellor recouping the extent to which Cronholm used Sweden's diplomatic privileges for Germany and his recommendation of an imperial decoration for him, is regarded by allied diplomats here as further evidence of their charge that Germany has distributed decorations among the diplomats of friendly neutrals for such services probably in other instances.

Officials and diplomats today are awaiting the next development in the unusual international situation created by the state department's revelation that the Swedish legation in Mexico, as well as in Argentina, was utilized by the German government as a secret means of conveying valuable communication to the Berlin foreign office.

A letter, written March 8, 1916, by von Eckhardt, former German minister to Mexico, who was concerned in the notorious Zimmerman plot, was intercepted by American officials while enroute to the imperial chancery. It discloses that Folke Cronholm, former Swedish charge at Mexico City, virtually was employed by the German legation to furnish information from the hostile camp.

The letter asks that the imperial government recognize the services of Cronholm by awarding him the Order of the Crown of the Second Class.

Copies of the von Eckhardt letter have been forwarded by the state department to Ambassador Fletcher in Mexico, and to Minister Morris in Stockholm, but neither has instructions to present the information to

the government to which he is accredited.

Dispatches to the department from The Hague, dated yesterday, were that up to that time the disclosures made by Secretary Lansing of the manner in which Count Luxburg had used the Swedish minister in Argentina as a bearer of dispatches had not been published in Germany.

It is not expected that this government will take any further action except possibly to add to the story of intrigue by revealing more documents in its possession.

AIDS INVESTIGATIONS.

(Associated Press Telegram)
London, Sept. 14.—An official statement issued by the Swedish government telegraphs the correspondence at Stockholm of the Central News Agency says that O. A. H. Ewerloef, secretary of the Swedish ministry of foreign affairs, has been on leave of absence from the foreign office and has placed himself at the disposal of the minister of justice with the object of assisting in the special investigation in connection with the Swedish-Argentinian revelations.

ASK 7 BILLIONS FOR EMERGENCY WAR PURPOSES

(Associated Press Telegram)

Washington, Sept. 14.—More than seven billion dollars for war expenses will be appropriated by the urgent deficiency bill brought into the house today by the appropriations committee with plans to hurry it through.

The great destroyer building program, the merchant fleet of the chipping board; munitions, arms and artillery of all descriptions are dealt with in terms of hundreds of millions. The bill also includes a small sum for relief of American citizens in Germany.

LETTER SHOWS PLOT TO KEEP MRS. KING AWAY FROM FRIENDS

(Associated Press Telegram)

New York, Sept. 14.—A letter indicating a plot to keep Mrs. A. L. Robinson, mother of Mrs. Maude A. King, mysteriously shot August 29, at Concord, N. C., to get into direct communication with her daughter about that time, has been found here in the effects of Gaston B. Means, the dead woman's business agent, it was announced today by District Attorney Swann, who is investigating the case here.

The letter, dated Asheville, N. C., Aug. 28, had apparently been opened by Means, he said, and never reached Mrs. King. It was registered and return receipt demanded, having been addressed to Chicago and forwarded here.

This letter was regarded by the district attorney as supporting other evidence found that those about Mrs. King were carefully keeping her out of touch with her relatives.

READY TO FILE WILL.

(Associated Press Telegram)

Chicago, Sept. 14.—The most bitter fight for millions witnessed in Chicago in years was predicted today when a local attorney said he was only awaiting word from Gaston B. Means to file for probate the alleged "second will" of James C. King, whose widow was killed mysteriously near Concord, N. C.

The stakes will be a trust fund of \$3,000,000 for the James C. King home for old men and the property of the home, valued at \$1,000,000.

On one side will be Mrs. Mary C. Melvin, sister of Mrs. King and who would be beneficiary of the disputed "will" were held genuine. The opposing interest would be the Northern trust company, custodian of the home and its funds.

DRIVER INJURED ON RACE TRACK AT THE FAIR GROUNDS

John Nelson of Buckeye Lake, driving Nellie Baron in the 2:22 pace, was badly injured on the race track this afternoon. A sulky collided with that driven by Nelson on the first quarter and he was thrown out and seriously injured.

The Bazler ambulance was called and he was taken to the City hospital suffering from a broken arm and a number of serious cuts on the head.

AUSTRALIAN ENVOYS COMING.

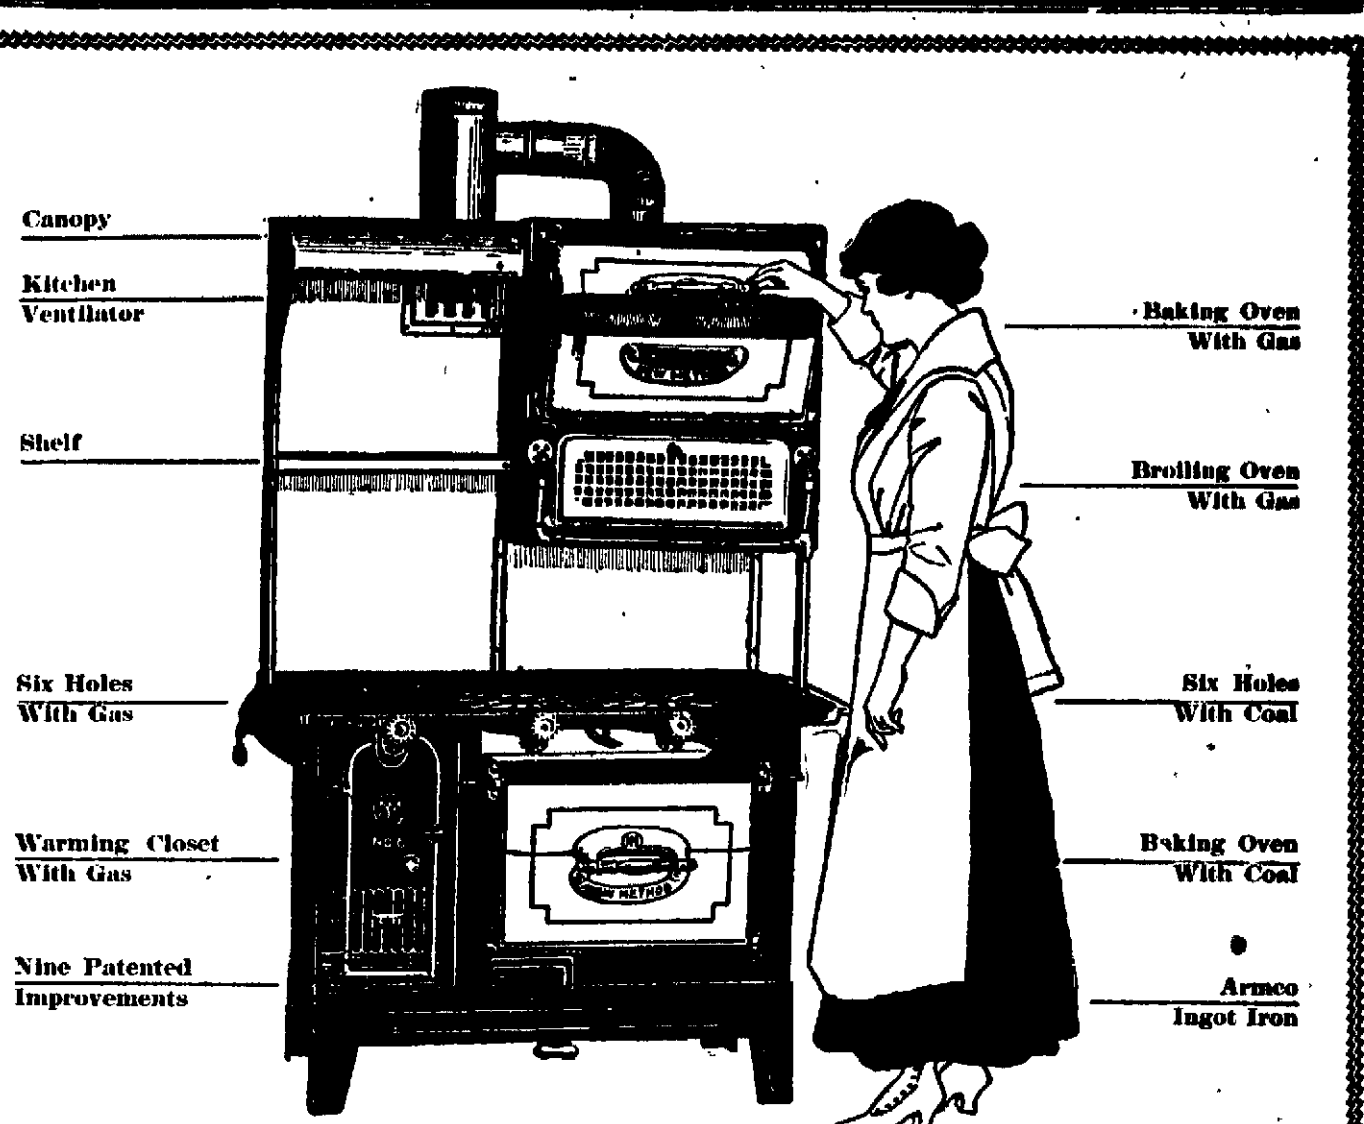

(Associated Press Telegram)

London, Sept. 14.—A dispatch to Reuters Limited from Melbourne states that the Australian government has decided to appoint trade representatives in the United States and other countries for the purpose of developing export trade.

BOXING SEASON OPENS.

(Associated Press Telegram)

Sporting News, Sept. 14.—Cleveland's boxing season opens tonight when "Toughie" Ramser of Lorain and Johnny Mayo, of Philadelphia meet in a ten round contest in a roof garden boxing show.

NEW METHOD "3 IN ONE" RANGE

Exclusive Gas : Exclusive Coal
Combination of Gas and Coal

IN ECONOMY OF GAS
Baking, Broiling, Toasting and Ease in Operation equals the New Method Exclusive Gas Range, as this range has the New Method Special Gas Oven and Broiler Construction.
New Method Enamelled Steel Burners.
Guaranteed for Five Years.
New Method Swinging Simmering Burner and Lighter.

IN ECONOMY OF COAL
Surpass both the sheet and two flue construction used in other coal ranges.
In baking, this range equals the gas range ovens, on account of the heat in this new construction passing entirely around the oven, instead of only around top, bottom and one side.
Body insulated with thick asbestos.

COAL AND GAS HEATERS

OVER MILLION MEN VOLUNTEERED HERE WAR RECORD SHOWS

(Associated Press Telegram)
Washington, Sept. 14.—In the belief that the country does not understand the real strength of the American military and naval forces, Chairman Dent of the house military committee today submitted to the house for publication in the congressional record a statement prepared at his request by the committee on public information from government records.

"On September 6, 1917," the statement says, "there were in the regular army, national guard and reserve corps of the army 78,328 officers and 741,053 enlisted men. In the navy there were 141,867 enlisted men, 41,473 naval reserves and 14,600 of the naval militia in the federal service. There were 5,000 men in the coast guard and 6,500 in the hospital corps making a total of 209,340. Enlisted strength of the marine corps was 29,971; reserve in the services 1,070; national naval volunteers 704; retired men on active duty 14. There were approximately 12,000 officers in the navy and 1,166 in the marine corps."

"In other words, on that date, the army had, including officers and enlisted men, 819,881 and the navy 254,266, making a total armed strength on that date of 1,074,147 men, all of who were volunteers. Prior to that time there was not a drafted soldier in a single training camp. The draft law was approved May 18, 1917."

WELSH HILLS.

Mr. and Mrs. H. J. Williams, Mrs. John Hankinson, Mrs. Carey Evans, Mrs. Emory Hankinson and Joel Cade attended the Columbus Baptist Association held with the Central church in Columbus last week. The Grange meeting was largely attended last Thursday evening.

Mr. and Mrs. John Carlisle are very happy since the arrival of a daughter, named Lillian, in their home on August 13th.

Mrs. A. W. Claggett entertained twenty of her lady friends from Newark on Labor Day.

Mr. and Mrs. Alex Carlisle spent one day last week in Columbus with their grandson, Floyd Carlisle, who will go to leave for Alabama.

Mrs. Edith Markowitz of Akron, is spending the week with her sister, Miss Winifred Philipps.

Pupils from this place, who are attending school in Granville this year, are Misses Dorothy and Lorna Jones, Frances Davis, Ethel Carlisle and Clara Roe.

Mr. and Mrs. Harley Shirk and two daughters of Granville spent Sunday with their parents, Mr. and Mrs. George Barber.

Forest Fleming and Alex Carlisle motored to Utlia Monday, where they spent the day with John Carlisle and family.

The Welsh Hills Grange have an exhibit at the county fair this week.

Mrs. Emma Starnes and three daughters, Fanny, Ina and Beatrice, of Shawnee, are spending a few days at the home of her mother, Mrs. Mary C. Williams.

4. Assets \$14,000,000.00.
5. Five per cent paid on time deposits.
6. All money loaned only on first mortgage on homes and farms, the safest of all mortgage loans.

McADOO TURNS DOWN THE PUBLICITY PLAN FOR LIBERTY BONDS

(Associated Press Telegram)
Washington, Sept. 14.—Secretary McAdoo's statement to the senate finance committee on the war credits bill indicates that the paid newspaper advertising campaign for the next issue of Liberty bonds advocated by publishers' associations, will not be adopted.

Limited newspaper advertising at the most is possible, Secretary McAdoo stated. He advised the committee that only one bond issue between now and the December session of congress is planned or possible.

"It may be necessary to use some advertising," said Secretary McAdoo. "I do not know whether it will be in newspapers or some other form."

He stated that the publishers' program of \$2,500,000 for paid periodical advertising could not be adopted because it virtually would take the entire available expense allowance for floating the bonds. The expense of floating the first issue with no paid newspaper advertising, he said, was about \$2,000,000.

Mr. McAdoo also said that members of congress could greatly assist in the forthcoming effort by going home and campaigning for the bonds.

"There is a campaign on for paid advertising in the newspapers," said Secretary McAdoo. "I have not committed myself to any sort of advertising campaign, but to sell them for one-fifth of 1 per cent is a monumental task. If advertising is necessary I want to be free to advertise."

POSTPONEMENT OF THE ANTI-SALOON CONVENTION

(Associated Press Telegram)
Columbus, Sept. 14.—Postponement of the national convention in Washington of the anti-saloon league of America was announced here by Dr. P. A. Baker, general superintendent of the league. The convention will be held December 10-13, instead of December 4-6, Dr. Baker announced. Crowded conditions of Washington hotels, on the earlier date, is given as the reason for the change in dates.

Granville

(Special to The Advocate)
Granville, Sept. 14.—New students in Denison, Shepards and Doane found a hearty welcome and an opportunity to get acquainted with each other and with the church people, at a reception given last evening, following the regular weekly prayer service by the Women's Social Union of the Baptist church, under the direction of the president, Mrs. Clark W. Chamberlain. The rooms were filled with church members and the young people present both "new" and "old," received a welcome from the reading desk delivered by the pastor, Dr. Millard Brelsford, at the opening of the prayer service. Students enjoy the privilege of finding their church home among any of the denominations in the village, although the greater number, of course, are Baptists.

It is worthy of special note that Mrs. J. E. Ladd, wife of Attorney Ladd of Bowling Green, and mother of a former Denison man, Donald Ladd, has been presented with a special army service flag with four stars in it, as she has four sons enlisted in the service of her country. Captain James E. Ladd, United States army; Lieutenant Donald M. Ladd, National Guard; Corporal Raymond and Paul, Company H, Second regiment, Ohio National Guard. Jesse is a graduate of West Point Military Academy, Ray of Ohio State University, and Donald of Denison University. The flag was presented by the Veterans of Toledo, who had one made specially for Mrs. Ladd, as it was not expected that one mother would give so many sons.

The Licking County W. C. T. U. convention will be held at the Neil Avenue Methodist church, Newark, September 19. On Sept. 18, a stereoscopic lecture will be given by Miss Mary Edwip and on the evening of the 19th the address will be given by Miss Rose Davidson.

The Granville Public Library is in a flourishing condition and is finding new friends every month. Newspapers and periodicals are on the tables, among them the New York Times received the evening of the day of publication, and System, the business man's magazine. During the month gifts have been received from Dr. J. D. Thompson, who gave 60 books, mostly recent fiction; Box Woodbury of Columbus complete sets of Charles Reade and Bulwer Lytton; Walter H. O'Donnell, 13 books for boys; Mrs. Serenay Hayes, one book. Mrs. E. P. Cook has presented the library with the official magazine of the D. A. R. and Rev. S. W. Hamblen has presented a fine lot of pamphlets of recent publication concerning the war. The librarian, Miss Grace Chamberlin, makes another plea for the war libraries. Our soldier boys must not be forgotten.

The first meeting of the Travelers' Club will be held on Monday, October 1 at 2 p. m. in Geology room of Science Hall. A reception of new members will be followed by a lecture, "A Physical Survey of South America," by Dr. Frank Carney.

Hiram La Ferre expects to spend a few days at the home of his son and daughter, Mr. and Mrs. L. H. Cammack in Huntington, W. Va. Prof. Raymond Pence, head of the English department in DePaul University, Mrs. Pence and their two children who have spent the summer in Granville have left for their home.

DOES AMERICA KNOW

That there is a WAR going on in Europe?

That the WASTAGE on the British front alone is 2,000 MEN A DAY?

That a present of 100,000 AIR-SHIPS to the Allies will do no good unless the ENGINES are of the sort THAT CAN BE USED at the front?

That when America sends MEN to France, the men must be FED and CLOTHED and given GUNS?

That the MAINTENANCE of an army at the front is the maintenance of a city as big as Chicago suddenly dumped in the middle of a desert?

That England has had to build her own DOCKS in Northern France to receive her transports?

That it's like offering a LIVE ELEPHANT to a baby to offer to France American troops without maintenance?

That "It is easy to reckon how much tonnage is necessary to transport an army from America to the European continent and how much tonnage is required to feed such an army; that France and England are scarcely able to feed and supply their own armies without influencing their military and economic situation still more and that the submarine warfare is accomplishing all, and more than all, that was expected of it?" (Michaels in the Reichstag.)

THAT EVERY DAY THERE ARE FEWER MEN LIVING IN THAT THIN HUMAN WALL WHICH DIVIDES GERMANY FROM NEW YORK?

That there REALLY are such things as SHELLS and BOMBS and POISONOUS GAS and LIQUID flame, and that when these things strike you, they HURT?

That either IT'S UP TO AMERICA TO STRAIN EVERY NERVE OF EVERY INDIVIDUAL AND FINISH THIS WAR PROPERLY.

Or IT'S UP TO EVERY WORKINGMAN IN THE UNITED STATES TO HAND OVER SO MUCH PER WEEK OUT OF HIS WAGE FOR THE REST OF HIS NATURAL EXISTENCE INTO GERMANY'S POCKET-BOOK, AND PAY FOR THIS WAR PROPERLY.

MUST WAR PUT ITS IRON FINGERS ON THE THROAT OF EACH SMALL TOWN OF THE UNITED STATES BEFORE AMERICA KILLS ITS EYES AND YAWNS AND TURNS—TODAY—TO JUMP OUT OF BED?

Thus writes Ruth Wright Kaufman, special correspondent of the Vigilante, in an appeal just received from Paris. America doesn't as yet fully realize that she is at war and that realization is at hand. The departure of hundreds of men from every county, men from every village in the land, to enter the new National Army cantonments will awaken all to the fact that we are in a war and then the enactment of the revenue bill with its burden will be further proof that we are in serious business. America isn't thoroughly awake as yet but the time is at hand when all will know what we are about.

The Kaiser's answer to his people's demand for a more democratic government was to allow the people to celebrate the capture of Riga at the expense of the taxpayers.

The government is proposing to economize by cutting out many rural mail routes, but, of course, it can't be done in any congressman's district.

One and two-dollar bills reported scarce, but one occasionally can keep them five or ten minutes while walking from the office to the grocer's.

Daily History Class—Sept. 14.
 1861—Dante, Italian poet, died; born 1805.

1847—Jan van Olden Barneveldt, Dutch statesman and martyr, born; beheaded 1613.

1812—Napoleon entered Moscow.

1847—United States army entered the City of Mexico as conquerors.

1801—President William McKinley died; born Jan. 23, 1842.

1914—Allies recaptured Bismarck, which they had abandoned on the 4th during their hasty retreat on Paris.

1916—Russians defeated by Bulgarians and Turks at Dobrich, in Eastern Roumania.

ASTRONOMICAL EVENTS.
 The red star Aldebaran, a sun like our own, seen north of east well above the horizon in the evening. Planet Mars was after midnight.

KEEPING TREATIES.

Prominent among the causes of the war which the government wishes emphasized by all who discuss current events, is the matter of keeping and breaking of treaties. As was clearly set forth by President Wilson in his note to the pope, our people can place no faith in the word of the present rulers of Germany. It is of no use to make peace agreements with people who will not keep agreements.

The German government, when it violated the neutrality of Belgium, expressly admitted that it was violating international law. It excused it on the excuse, as Kaiser William said in his letter to President Wilson, that it was necessary on "strategical grounds." According to that principle any agreement whatever could be violated for the reason that it would be advantageous to one of the parties to break it. Germany also knows perfectly well that when she sinks our ships and murders our citizens she is violating all law, treaties and agreements.

All human relations are dependent on the honorable keeping of pledges. In private life the man who won't keep them is kicked out of the business world. It is no use trying to deal with him.

When a nation violates its solemn promises, conditions simply revert to the time of the cave-man, when the one with the biggest club ruled the rest. It is no use to try to make agreements with those who try to rule in that way. The only way is to get a bigger club. Next time they may respect agreements.

That is where we are with Germany. We are not fighting to get any territory for ourselves or any one else, except such as she may have stolen. It is simply to teach the rulers of Germany a lesson so that they will see and thoroughly realize that it is better policy to keep agreements. As long as she will persist in breaking them, and in keeping the most powerful military force ever assembled by one nation, so long it is impossible for other nations to live in peace with her.

The young lady across the way says she saw in the paper that the senate had voted to spend \$27,000,000 for pork but the country will stand by it no matter how much it spends on the matter so long as it economizes on other things.—Bob Ryder in Ohio State Journal.

The people who say Germany has won the war claim we should have gone in earlier, and if we had gone in earlier they would have said we were too hasty.

It would not be safe to drive the I. W. W. out of the country, as any other country that we drove them into would have a cause of war against us.

The only trouble with these letters that have been seized as evidence against the I. W. W., is that so many of those people can't write.

The men enthusiastically promote the canning season by giving hearty moral support to their wives who are doing the work.

If the Russians won't fight for Russia, at least the snowflakes will soon.

THE REVENUE BILL.

(Philadelphia Record.)

The revenue bill passed by the house was expected to yield \$1,867,000,000. The senate finance committee reduced this about \$300,000,000. Secretary McAdoo sent in additional estimates of war expenses and the committee raised its bill to something over \$2,000,000,000. In the senate, however, two forces combined to increase the aggregate. On the one hand, the administration believes it wise to raise as much as possible by taxation, and proportionately reduce the need of loans. On the other hand, a number of senators believe it popular to tax incomes and profits as heavily as possible independently of the amount of revenue needed.

While the senate rejected the extreme proposition of LaFollette, who, of course, led in the attack on wealth, it did very materially increase the taxes on incomes and profits, and with only four dissenting votes it passed a bill that is expected to raise more than \$2,400,000,000.

It is the largest proportion of the cost of a large war to be raised by taxation that has ever been proposed. Of course, the cost of small wars has been raised in whole or in great part by taxes, though we borrowed a part of the cost of the very short Spanish war. Great Britain is raising about 15 per cent of its war costs by taxation. The senate would raise nearly 25 per cent if we take a year's war expenses as \$10,000,000,000, which is probably a liberal estimate. If the loans to the allies be left out, and, of course, they ought to be, for they are not a gift; they are an advance, to be repaid.

It is undoubtedly sound finance to raise a large part of a war's cost by taxes. It is necessary in order to make it practicable to market bonds on favorable terms. The German policy of meeting the costs of war almost entirely by loans is unsound, and it was not adopted as a financial system, but because the people had long been assured that war would cost them nothing, and the government was timid about imposing heavy taxes on them.

It would discredit the fundamental idea of all Germans that indemnities could be extorted that would cover all the costs of war, and yield a profit on the enterprise.

But we are going to the opposite extreme. The report of the senate finance committee said that the proposed taxes, together with those already enacted, would raise 55 per cent of the estimated expenditures for the year, war and normal, but that was based upon an estimate of about five and a half billions. Since then the estimates have been much increased, and while the taxes have also been increased, the percentage of war costs to be met by taxes has been reduced.

But these new taxes, in addition

to others already enacted, would raise nearly a quarter of ten billions, which the war costs of the current year can hardly exceed. When it is the usual thing for states and municipalities to issue bonds for 30 or 50 years to meet the cost of the larger class of improvements, it is of dubious wisdom to levy taxes that would pay for a year of war in four years, or two years of war in eight years. It must be remembered that the people now living must pay war prices as well as war taxes, and that the results of this war will benefit all succeeding generations.

Furthermore, the war costs are so great that the larger part must be paid for by bond issues, and it is not good policy to make the taxes so high as to increase the difficulties of very large bond sales.

WASTE PRODUCTS.

It has often been a depressing sight to thrifty people to see fruits and vegetables decaying in the country, while the poor of the cities could not buy them except at high prices. It is a common sight in the apple-growing sections to see a lot of wind fall fruit with considerable food value, rotting away on the ground. Many other kinds of food are allowed to go to waste because help costs too high to pick them.

Also, this is a year when owing to high price of grains, many farmers have sold their hogs and cattle, which formerly made productive use of a great deal of garden and orchard products otherwise wasted.

In some places the Boy Scouts have been set at the useful task of picking up such fruit and vegetables and shipping it away. There is something wrong about our habits of living if there is not labor enough to take care of all the foods our soils produce. It wouldn't hurt some girls a bit to omit their five-finger piano exercises for a month, and take hold and help on the easier of the outdoor tasks.

QUAKER QUIPS.

(Philadelphia Record.)

Fine feathers don't make fine birds. The mud turtle is just as handsome as the terrapin.

The fellow who is forever talking about his family tree doesn't like to be told it's a chestnut.

Wealth may not bring happiness, but it is quite possible for a man to be happy in spite of it.

Of course no woman is perfect, but some of them come pretty close to concealing their imperfections.

Some people object to looking for a needle in a haystack. In fact, they never even look for a haystack.

Distance lends enchantment to the view, but you never really know a man till you see him at close range.

The fellow who is always waiting for something to turn up expects someone else to do the turning up for him.

"Clothes don't make the man," quoted the Wise Guy. "Still, many a man owes a lot to his tailor," suggested the Simple Man.

Wigwag—I have read somewhere that the camel can carry a bigger load than the elephant. Gutzler—"Zasso? I always did sorta think I'd like to be a camel."

LICKING COUNTY SOLDIERS' MEDALS ATTRACT WIDESPREAD ATTENTION

A prominent New York state manufacturer who had seen a postcard picturing The Advocate soldiers' service medal, writes this newspaper a very complimentary letter inquiring where the medals were procured and their cost. The letter said in conclusion: "I would be glad to pay for one of the medals as a sample, if I might. We have had many going from our city and possibly would like to do the same thing by them."

The Advocate obtained the bronze medals from Bastian Brothers, Rochester, N. Y. This newspaper suggested the design which was beautifully worked out by the Rochester artists and engravers. The lettering of each soldier-sailor name and address is being done by Mr. James T. Haynes, of Haynes Brothers, Newark jewelers. The first 400 medals, exclusive of engraving, cost \$197.

An order for 350 more has gone forward and as the dies are already made the second lot will cost one-half the price of the first shipment.

Mr. Haynes is making a very low rate on the engraving. Four cents postage is required in mailing the medals with each of which goes a personal letter and a printed list of nearly 1400 contributors to the medal fund. Out of this fund raised through The Advocate by popular subscription the sum of \$65 was used to buy 5000 especially-designed registration celluloid buttons which were pinned upon the Licking county men who registered on June 5.

Every day The Advocate receives names of Licking county men who are entitled to service medals. It is the intention to furnish one to every Licking county man now in the service and also to those who will enter the new national army from this county. More than 300 medals have already been distributed and the national army will take 342 men from this county. Of course, this office is keeping an accurate record of the names and addresses of men to whom medals are sent. This record is open for public inspection at any time.

Up to date, the amount contributed to the medal fund is \$439.12. Assuming that 750 medals will be enough to supply the demand, \$73.25 will still be needed to meet the expense, as follows:

5000 registration buttons.....\$ 65.00
 Express......49
 400 medals (less discount) 197.00
 350 medals (ordered).....87.50
 Postage (estimated).....20.00
 Engraving.....187.50

Total fund to date.....\$567.19

Balance needed.....\$ 78.36

The Advocate has received contributions ranging from 10 cents to \$5. One little girl gave three cents, which accounts for the odd amount

PAQUISTS IN THE '60S.

(Kansas City Star.)

One of the strong men of the civil war period was Samuel J. Kirkwood, governor of Iowa. In those days there were men who would make peace at any price of national honor, just as there are now. There were men in the North who decided the war because they were men who wanted peace because war interfered with business and cost them money. To all those and their like Governor Kirkwood issued an appeal in a message to the legislature which is just as applicable to conditions now as then, especially the following part of it:

"We are eminently a peaceful people, and the interruption of our peaceful vocations by war and its incidents bears hardly upon us; but we must remember that the only way to bring back and make permanent peace to us that peace we love so well is to convince those who have thrust this war upon us and to convince all others that, although we love peace much, we love our country's honor and the perpetuity of our Union more."

WORD TO THE ENGINEER.

(Pittsburg Chronicle-Telegraph.)

A few years ago Colonel George Harvey addressed a circular letter to the railroad presidents of the country, asking for a little information. He wanted to know why American trains could not be started and stopped as gently as European ones.

In England, as Arnold Bennett has told us, trains come to a standstill in the station "like a dove alighting on the shoulder of a beautiful girl."

Our trains run smoothly enough after they get started, but what a series of jerks are involved in the process! And when a fast train is approaching a terminal passengers have learned by experience not to stand in the aisle, but to remain braced in their seats for the inevitable shock of stopping.

Colonel Harvey's interrogation was ignored by all except one railroad executive, whose reply was simply an exhibition of bad temper, shedding more heat than light on the subject.

But perhaps the colonel's missionary work is beginning at last to bear fruit. At any rate it is interesting to find the president of the Baltimore & Ohio Railroad addressing the officers of the company the other day at their annual meeting at Deer Park, calling attention to this same question. "In theory," he remarked, "our passenger engineers are expected to start their trains so easily that you only know the train has started by the fact that things seem to be moving by. That is a very high standard, but it is possible. There is also another ideal that can be attained; they should stop the train so easily that you only know it has stopped by seeing that you are not moving. If those two things can be brought about, nothing that could be done by you or me would increase so much the popularity of our line." It seems a little thing, but the reform suggested would add immeasurably to the sum total of comfort of passengers on American railroads.

Spirit of the Press

Risks in Battle.
 Based upon the reports of M. Tardieu, the French high commissioner, a committee on public information has figured out that only 11 soldiers are killed in action or die of wounds in each 1,000 of mobilized strength on the western European front. This report is certainly cheering to all those who have sent loved ones out to the battle front. All but 11 in 1,000 will come home, though some many be wounded, but they will come home.—Ohio State Journal.

Mourning in War Time.
 The suggestion is made that during the period of the war the wearing of black as a symbol of mourning be abandoned. Europe has discarded black as a measure of economy. In England it was found that the wearing of black raiment by so many thousands not only had a depressing effect on the whole civilian population, but proved a serious financial burden to the poor and a menace to national interests in diverting labor and material from strictly necessary channels.—Anacanda Standard.

Merger Not Likely.
 If the suggestion for the union now comes from Honduras, it is purely a political move, for Honduras has long been a bankrupt country, without resources of any consequence, and at the mercy of any invading army from Guatemala, Salvador or Nicaragua. It is to the interest of Costa, Rica, and Costa Rica alone, that the neutrality of Honduras be guaranteed by these three republics, for an invasion of Honduras by any one of them would mean a war in which Costa Rica would feel obliged to participate. But she wants no union, and consequently there is little hope of ever bringing about a merger of these five discordant states.—Providence Journal.

A Question of Endurance.
 Victory is not to be won by mere assault, simply by the force of men which the United States, coming to the support of the Allies, shall be able to accumulate and hurl against the legions of the Hun. The war is still a question of endurance, and the strength which the United States brings to the common cause is not to be measured by the 1,000,000 or 2,000,000 of men which it may send into battle, but by the millions remaining at home whose resources are concentrated and concentrated for the support not only of our own armies but those of our Allies.—Philadelphia Bulletin.

The Advocate's PAVEMENTING POE

There is a society continually open to us as long as we like, whatever our rank or occupation; talk to us in the best words they can choose, and of the things nearest their hearts. And this society, because it is so numerous and so gentle, and can be kept waiting round us all day long in those plainly furnished and narrow anterooms, our book-case shelves—we make an account of that company—perhaps never listen to a word they would say, all day long.—John Ruskin.

Good for 'Em.
 Our own idea of the right kind of sex hygiene for the average girl to devote most of the time set apart for this subject to deal with what kinds of things to eat are best for the male sex.—Ohio State Journal.

This is such a radical suggestion that it isn't likely anything will ever come of it, but if it ever should be adopted we imagine it will be decided that the male sex should be fed generously on parsnips.

A CIRCUS "SUFF"

Woman Finds a New Place For Plea For Votes.

SHE WAS INVITED TO MAINE

Mrs. Grove Was Making a Perfectly Good Speech to the Band Stand Gods in the Street When the Circus Manager Invited Her on to the Platform.

Mrs. Grove hails from Chattanooga, Tenn., which is also the home of a large circus. When the circus owner found Mrs. Grove making a perfectly good suffrage speech from the band stand in the streets to the circus crowds which were gathering he said, "Why don't you come in and speak for ten minutes from the platform?" His invitation was promptly accepted, and for the allotted ten minutes a

MRS. J. S. GROVE.

crowd of 2,000 people listened quietly and attentively to straight from the shoulder suffrage doctrines.

When the circus went to Bangor, Me., Mrs. Grove went too. On the same day she was cordially accepted a second time as part of the circus attraction.

Mrs. Grove's speech, which was very short and heard all over the huge circus tent, follows in part:

"You are here for your pleasure this evening. You will see many wonderful and amusing things. But I want you to take away with you just one serious thought. On Sept. 10, I want you men to remember the women of Maine, and give them the vote. The women of England, of Russia, of France, and of the other countries at war in Europe have been doing the work of the men, tilling in the munition plants by day and coming home at night to take care of their homes and their babies.

"They have been doing men's work and women's work too. And England and France and Russia have decided that the women of those countries, who are thus helping to keep the state alive while the men are on the field shedding their blood for it, are equally necessary to the existence of the state. And so all those countries will bestow the franchise upon these brave women. The women of America, the women of Maine, are no less brave and strong and patriotic than the women of Europe. You, too, may need the women of this country. Will you not see that they are enfranchised now before it is too late to take full advantage of the brains and the wisdom and the strength of your women?"

Best For Land.

One woman states: I should like to tell you something which I have found helpful in reducing the ever growing bill for land. It has proved useful in my household.

As a substitute for lard I take a pound of beef suet, cut it in small pieces, and fry it out in the oven. It will make a perfectly clear fat. Then I pour it into a lard pail. When it cools you will find it a perfectly satisfactory substitute for lard. I use it for shortening, frying or anything else for which I should ordinarily use lard. It will make almost as much as a pound of lard and costs only 10 cents instead of 25 cents.

Sweet Pickled Pears.

Take three and one-half pounds of hard Dutchess pears. For this quantity make a sirup of two and one-half pounds of sugar, one-half pint of water. If vinegar is very sour take more water and less vinegar. Add one-third of a cupful of stick cinnamon, one tablespoonful cloves, and boil slowly for one-half hour. Press a couple of cloves in each pear and cook in the sirup until tender. Put pears in jars, reduce the sirup and fill jars to overflowing. Adjust rubbers and covers.

Fine Grained Cake.

For a fine grain cake here is one hard to beat: One-quarter cupful of butter creamed with one cupful of sugar, beat in two eggs, sift two or three times one and one-half cupfuls of pastry flour with one teaspoonful of cream of tartar and add two-thirds cupful of sour milk. Grate the rind of an orange in sometimes, too, and make a layer cake, and for filling add a little lemon juice, with orange juice and sugar.

Even when he enlists in the aviation corps a fellow must begin at the bottom.

Personal

Miss Junia Sells will leave Monday morning for Los Angeles, Cal., where she expects to study, and teach music the next two years.

Mrs. Clifford Thompson, who has been the guest of her parents, Dr. and Mrs. W. H. Sedgwick returned to her home in Troy today. She was accompanied by Mrs. Jay Cooper and little daughter Ann Linda. Master Jay Robinson, son of Mrs. Addie Robinson of 56 North Second street, who has been spending his vacation at home, returned to Old Dominion Military Academy to resume his studies.

Mr. R. Ferguson, of the Pennsylvania railroad at Pittsburgh, is spending a few days in Newark.

Mrs. Glen Bolin of Zanesville, is visiting at the home of her parents, Mr. and Mrs. Ingler, Hudson avenue.

Our Boys and Girls

If it is necessary for a child to take a lunch to school, see that it is different each day as well as dainty and pleasing in appearance. Here are a few suggestions for luncheons: white bread with quince marmalade. Fifteen filberts, one orange, Boston brown bread with pimento cheese, ten dates, stoned and rolled in sugar, biscuits with sardines and lettuce, a frosted cup cake, white bread with chopped nuts, or even one cruller.

Eight small crisp crackers with peanuts are nice, or four stuffed prunes, graham bread with cold chicken, twelve English walnut meats, white bread with current jelly. White grapes or a sandwich made with one slice of white bread spread with blackberry jelly would be very dainty. Even one apple, or white bread with crisp bacon, or celery heart or two chocolate marshmallows would be appreciated.

Some other pleasing bits are graham biscuits with bits of this sliced, or one half inch cube of maple sugar, or white bread with chopped egg or two big figs or graham bread with lettuce sandwich.

CROXTON WILL ATTEND CONFERENCE WITH HOOVER

Columbus, O., Sept. 14.—Fred C. Croxton, Ohio's new food administrator, will return to Columbus tomorrow from Washington, but will return to that city again next week to attend a conference of the food administrators from the various states.

This conference, to be held with Herbert C. Hoover, the national food administrator, will make arrangements for a general plan of food administration work throughout the country.

ZANESVILLE BOY "GASSED" IN FRANCE

Zanesville, O., Sept. 14.—Word was received by J. K. Clark, North Sixth street, that his son "Red" Clark, well-known here, had been wounded in action in France while serving with a Canadian machine gun company of which he was a member. The official statement from Ottawa, Canada, said that he was confined in the Ontario military hospital at Orpington, England, but did not say the extent of his injuries.

Clark is a telegraph operator and was employed at the local Western Union office for some time. He left here three years ago going to Cleveland and enlisted in the Canadian army a year ago. He was serving with the First Canadian battalion. Mrs. Clark stated last evening that newspaper announcements noted a Ted Clark as suffering from poison gas, but gave his home as Columbus. It is thought that he is the local boy.

Mr. Clark immediately dispatched a cablegram asking for more definite information.

JOHNSTOWN R. D. 4.

Mr. and Mrs. A. J. Dixon, Mr. and Mrs. H. W. Powers, Mr. and Mrs. Henry McMillen, John Frost and Mrs. Henry Dixon were Sunday guests of R. C. Dixon and wife.

F. P. Belt made a business trip to Newark Thursday.

Mr. and Mrs. Marion Powers called on Newton Powers and wife Sunday afternoon.

Mr. and Mrs. H. W. Powers attended church at St. Louisville, Sunday.

Mrs. Emma McClurg and daughter Pearl were Johnstown callers, Friday.

Marion Preston and sister Martha of near Chatham spent Sunday with Mr. and Mrs. E. F. Belt.

Raymond Lott, son of Mrs. Chas. Brant, died at the City Hospital, Newark, at 2 o'clock Thursday morning, death being to an attack of appendicitis.

Mr. and Mrs. H. W. Powers were dinner guests at the home of the latter's parents, Mr. and Mrs. E. R. Claggett.

Mr. and Mrs. A. J. Dixon were Utica callers Saturday evening.

Mrs. Emma Powers and Mrs. Bernice Powers were Appleton callers, Saturday.

Logan Barlick and family called on Mr. and Mrs. Edw. Jones of Chatham, Sunday afternoon.

ROSHON-WHITE. The wedding of Mrs. Cora White and Mr. Allen Roshon of Hebron, took place at the home of the bride in Newark, Thursday evening. The hour was 7:30 o'clock, and only the immediate families and a few friends were present.

Ways of Combining Vegetables With Pork or Eggs So That You Get the Same Amount of Nourishment That You Would in Expensive Meats.

[Prepared by department of agriculture.]

Vegetable chowders offer a good way of using vegetables and also skim milk. They differ little from milk vegetable soups, except that less liquid is used and the potatoes are usually cut into small pieces instead of being chopped fine. For this reason chowders seem more substantial. It is a mistake to be confined to any definite recipe.

MIXED VEGETABLE CHOWDER. One-quarter pound of salt pork or bacon, one onion, six medium sized tomatoes or one pint stewed tomatoes, one green pepper, four medium sized potatoes, three carrots, two cupfuls of skim milk, two tablespoonfuls of flour, two teaspoonfuls of salt.

Put the bacon or pork, onion and pepper through the meat chopper and cook in a frying pan carefully about five minutes. Add a little water and tomatoes and cook until the vegetables are tender. Cut the potatoes and carrots into small pieces and cook in water until tender, drain and add with the skim milk to the other ingredients. Thicken with the flour mixed with a little cold milk.

LIMA BEAN CHOWDER. One pound of salt pork, one onion, one green pepper, three cupfuls of skim milk, one pint or half a pound of green shelled lima beans, four small potatoes, salt and pepper.

Put the pork, onions and pepper through the grinder. Cook carefully for two or three minutes, being careful not to burn. Add either the beans or the potatoes with water enough to cover, and cook until the vegetables are soft. Cook the other vegetables separately and when soft add with the milk to the other mixture. Reheat and season.

The protein in the above dish is equal to that in about three-fourths pound of beef of average composition. Any vegetable may be used in place of the beans. Corn and saffron are perhaps oftenest so used.

Vegetable Souffle. These dishes are a good way to combine eggs and vegetables. If made with the green shelled legumes—peas, beans, soy beans or cowpeas—they may be considered meat savers.

First.—A thick sauce made with one-fourth cupful of fat, one-fourth cupful of flour, one cupful of liquid, which may be milk (whole or skim), cream, meat stock or the water in which vegetables have been cooked.

Second.—One cupful of thick vegetable pulp made by draining cooked vegetables and then mashing them or putting them through a sieve.

Third.—Three eggs, the whites and yolks beaten separately.

Fourth.—Flavorings. Salt, pepper, onion juice and any one of the following may be used: Very finely chopped parsley, chives or ham or one-eighth teaspoonful curry powder. Bacon used in making the sauce gives a good flavor.

Mix the vegetable pulp, seasoning, sauce and well beaten egg yolks. Carefully fold in the well beaten whites of the eggs, put into a buttered baking dish and bake in a slow oven until firm.

The amount of vegetables in this dish may be increased by serving vegetables around the souffle.

The following is a typical recipe in which the protein is equivalent to that in ten or eleven ounces of average beef.

GREEN PEA SOUFFLE. One-fourth cupful of fat, one-fourth cupful of flour, one cupful of skim milk, one cupful mashed cooked peas (which will require about one-fourth-pint of peas), three eggs, salt and pepper. A few drops of onion juice or a very small piece of onion boiled with the peas. Combine the ingredients as directed above.

FALL MODEL.

To Wear With Your New Suit Is This Delightful Turban.

Navy blue velvet makes the foundation of this new turban, rather lower

GOOD TASTE.

crowned than many of the popular hats. Flaring about the edge is a crisp feather ruche in soft gray. Heavily figured velvets are in the lead.

Corn Fritters.

Corn, two cupfuls; cracker crumbs, one cupful; salt, one teaspoonful; milk, one-fourth cupful; egg, one. Combine the ingredients in the order given, beating the egg well, drop by the spoonful into a little hot bacon fat, brown on one side, then turn and brown on the other side.

No. Mande, dear: in cooking an omelet it isn't absolutely necessary to use egg coal.

The New Fall Fashions

Are Accurately Portrayed in Our Magnificent Display

In past seasons we have shown some wonderful displays of women's and misses' garments, but we must confess that never before have we assembled together such a truly remarkable collection of beautiful garments, as we now have ready for your inspection. We are so certain of the supremacy of this showing that we invite your most critical inspection and closest comparison. Don't delay in making the acquaintance of these charming new modes.

You will find coats as well as suits exemplifying the new straight line "silhouette" (which is Parisian for outline) and the new sloping shoulder effects and the daring squared shoulder effects.

You will find garments in the new Buella Cloths, the new Pom Poms, the new Silvertons, Gunburbis, guaranteed Plushes, Baffin Seal, and other stuffs that are really more than whimsical names. Besides the Kerseys, Velours, Cheviots and Broadcloths and others that you know from longer familiarity.

You will note a tendency to simplicity—the rough-and-ready indication of outdoor sports—the military spirit of the times—with a really satisfactory achievement in blending the masculine with the feminine.

And you will find real values—yes, rare values for these times.

Careless Use of Soap Spoils the Hair

Soap should be used very carefully, if you want to keep your hair looking its best. Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and ruins it.

The best thing for steady use is just ordinary unperfumed coconut oil (which is pure and greaseless), and is better than the most expensive soap or anything else you can use.

One or two teaspoonfuls will cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, which rises out easily, removing every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves the scalp soft, and the hair fine and silky, bright, lustrous, fluffy and easy to manage.

You can get unperfumed coconut oil at any pharmacy. It's very cheap, and a few ounces will supply every member of the family for months.

Milady's Boudoir

The Admired Woman. There is nothing more truly lovable than the woman who is genuinely womanly. There is a charm in her femininity that no acquired grace can lend. More especially in this age is the genuinely womanly woman admired. Girls nowadays seem to have a great desire to be so manly, so loud, not only in manners but in talk and dress, many choosing the harsher sports of men in preference to the more charming pastimes of woman.

The majority of men, I think, really prefer the quiet, lady-like girl with a soft, sweet voice, an affectionate disposition and the girl who prefers to be a lady in all ways. Loud talk and slang words are not for the lady-like girl, and although people tolerate loose manners in many, they do not really admire them.

Far more to be appreciated is the girl who openly avows that she likes nice clothes and is given over to the many little feminine vanities, than the one who dresses so manly and who imitates the walk of the toughest of her men friends.

To be a lady-like woman does not mean that one need adopt even feminine fads and futilities indiscriminately. The woman who can make her home bright and attractive, who can be the model hostess as well as wife, who is well informed and able to talk intelligently, yet who is wise enough to realize that women's privileges are preferable to all of man's rights, is the girl or woman we must all admire, and the one fit to be taken to an honest man's heart.

Every Day Etiquette

"When baked potatoes are served where should one put the skins, and is it proper to cut boiled potatoes with the knife or fork?" asked Fred.

"Baked potato skins should be put at the side of ones plate and a potato should be broken up with a fork, never touched with the knife," said his father.

Billy—"When a woman reaches 30 she begins to worry for fear she won't get married." Milly—"And how about a man of 30?" Billy—"Oh, he begins to worry for fear he will."

I'm glad there's such a big corn crop—says Bobby.

SUFFERED NINE YEARS

Many Remedies Tried in
Vain. Well and Strong
After Taking Lydia E.
Pinkham's Vegetable
Compound.

Spartanburg, S. C.—"For nine years I suffered from backache, weakness, and irregularities, so I could hardly do my work. I tried many remedies but found no permanent relief. After taking Lydia E. Pinkham's Vegetable Compound I felt a great change for the better and am now well and strong so I have no trouble in doing my work. I hope every user of Lydia E. Pinkham's Vegetable Compound will get as great relief as I did from its use."—Mrs. S. D. McABEE, 122 Dewey Ave., Spartanburg, S. C.

The reason women write such grateful letters to the Lydia E. Pinkham Medicine Co. is that Lydia E. Pinkham's Vegetable Compound has brought health and happiness into their lives. Freed from their illness they want to pass the good news along to other suffering women that they also may be relieved. This is a praiseworthy thing to do and such women should be highly commended.

**RED BLOODED
PEOPLE LIVE
THE LONGEST**

Red blooded people retain their youth and vigor until late in life because red blood ages slowly.

A child with impure blood seems old, while an old man with pure red ironized blood seems young.

Impure blood clogs the system with waste matters, rapidly aging body, mind and spirit.

Pure blood is red blood, rich in iron and phosphates with power to rid itself of waste matter and able to carry life giving oxygen to every cell and nerve. It makes both young and old, bright, happy, keen, and interested in life. This is the blood you need, every day of your life, the rich red blood made by pure food, fresh air, restful sleep and "Phosphated Iron red blood and nerve builder."

Phosphated Iron enriches your blood and nerves putting them in shape for work. Improves your color, increases your appetite and gives you strength, vigor and power to enjoy both work and pleasure, makes you feel like doing things once more.

Phosphate Iron is prescribed by leading doctors for all who are worn out, run down, nervous, weak and thin blooded people in all walks of life, they have learned to depend on it for honest results.

Special Notice—To insure physicians and their patients receiving the genuine Phosphated Iron, we have put in capsules only, so do not allow dealers to substitute pill or tablets, insist on the genuine, in capsules only.

PUBLIC HEALTH NURSE HAS BUSY MONTHS' WORK

Forty-three cases, 14 being patients suffering from tuberculosis during the month of July and August were under the care of the public health nurse under the auspices of the public welfare department, to the report made public by the welfare department. There still are 25 cases under the nurse's care now, the report shows. The details of the report follows:

Number of cases under care July 9 to September 1, 43: Tuberculosis, 14; babies under 1 year, 6; other cases, 23; discharged well, 2; discharged improved, 4; discharged unimproved, 4; to tuberculosis sanitarium, 6; discharged to hospital, 1; discharged dead, 3; total discharged, 18; current cases under care, September 1, 25: Tuberculosis, 8; other cases, 17; referred to county infirmary, 1; referred to family physician, 2; referred to probation officer, 2; referred to humane officer, 2; referred to material relief, 1; referred to township physician, 2; office interviews with and for patients, 62; total number of visits, 175.

The tuberculosis cases have come from different parts of the county. Adenoids, enlarged and diseased tonsils, defective vision and sanitary conditions have been reported for investigation and care.

The following will show something of the actual work done. Mrs. B., a woman of twenty-three and a baby of eighteen months, were reported. The woman was born in Hungary, one of a large family of children. The mother had died of tuberculosis when Mrs. B. was six years old. The father soon married again and came to America deserting his children, who supported themselves as best they could. Mrs. B. began supporting herself when she was twelve years of age. She eventually married Mr. B. who brought her to America and compelled her to work, abused her, and spent her earnings, chiefly for alcohol.

Several months before the baby came the husband deserted her leaving her to be supported through her illness and since by a young woman whom she met while working in the cigar factory.

When the case was first visited, Mrs. B. was found very ill with advanced tuberculosis and no medical care, in fact with very little care of any kind. They lived in two small, crowded rooms, with one window and door in each room, and unscreened. The girl and baby sleeping in the same room with the patient. The patient was careless, expectorated on the floor, porch, and in the yard, or anyplace she happened to be. Several of the neighbors kittens played over this same yard and porch, and then went home to play with the children. Flies were swarming. No less than fifty persons were exposed to these conditions, and if the one foot of a fly can carry six thousand germs, you can readily see what the result might be.

The township trustees were asked to send the township physician. The county commissioners were consulted and the case was taken to a tuberculosis sanitarium. The baby was referred to the probation officer for such time as it would be safe to transfer it to the children's home, the baby having been exposed to the whooping cough. The house was reported to the health officer for fumigation. The girl was sent to a dispensary in Detroit, where she was going to live with an uncle, for a chest examination.

In another family was found tuberculosis, blindness, malnutrition, mental deficiency, alcoholism, immorality, and filth unspeakable.

Hebron

Noah Ingleman visited with his parents at Mt. Gilead, Tuesday.

Music

The Chorus Committee of the Council of Defense held an enthusiastic meeting last night with a splendid attendance. Reports of this week show an increased interest, the West Side carrying off the honors.

Mr. A. S. Mitchell gave a talk on the purpose and object of the Choral Society in its relation to patriotism. Plans were discussed for completing the arrangements for the organization Tuesday night at Taylor Hall.

Miss Kate M. Lacey, of Columbus, announces her Quality Concert Series as follows: October 23rd Sophie Braslau, contralto and Theo Karle, tenor. February 22nd, Tina Lerner, pianist, Eddy Brown violinist. January 22nd, Anna Case, soprano, and Charles Gilbert Spross, February 15th, Philadelphia Symphony Orchestra with Hans Kindler, soloist. April 13, Amelia Galli-Curci, the world's greatest soprano.

The American people as a nation have hardly begun to sing the Cradle Song of their national life. Wait till they have gone through the testing fires of great national calamities, crushing national sorrows, and through the despair and gloom which the ebb of hope brings in its wake, then, and only then, will they be reincarnated into a singing and music-making nation. In times of peace one can hardly expect the masses to gather and make music with such passion as when the world has gone mad with the spirit of war. Along comes Mars, awakens the most brutal instincts in people, and practically overnight, infuses all with the spirit of song.

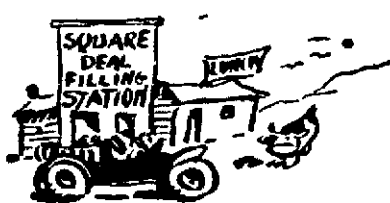

Are you a member of the Civic Choral Society? Don't forget the date, September 18, Tuesday, 7:30, Taylor Hall.

Wilbur McC. Beatty, of Steubenville, has been requested by the National War Council to travel to the different army frontiers throughout the country to sing for the soldiers.

Experienced. She's a splendid cook. Well, she ought to be. She's already had three husbands to practice on.—Detroit Free Press.

Sillious—"I tell you, a fellow is apt to do something desperate when a girl refuses him." Cynicus—"Yes, such as taking to drink or marrying some other girl."

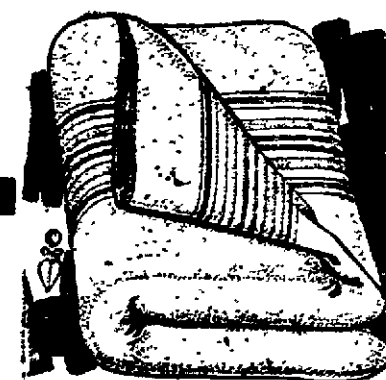

Abe Martin

We wouldn't be surprised if our big cabbage crop was only just a part of the German propaganda. Next to Harriet Beecher Stowe's great moral drama their haint nothing that draws as well in a little town as a horse fallin' down.

SHIPBUILDERS OF ENGLAND DELIVERING NEW VESSELS DAILY

(ASSOCIATED PRESS TELEGRAM)
Glasgow, Aug. 30.—On the hull of a big ship being built in one of the many yards that line the river banks of Scotland, and northwest England a workman has written with chalk in bold letters six feet high, five words that express the determination of British shipbuilders to "do their bit" toward defeating the German submarines. The five words are these:

"We will deliver the ships."
A staff correspondent of The Associated Press has just completed a trip through the principal yards of the Rivers Tees, Tyne, Wear and Clyde as the guest of the foreign office and the admiralty. The purpose of the journey was to permit the gathering of information regarding Great Britain's efforts which could be transmitted to the people of the U. S.

Great Britain not only will deliver the ships; they are being delivered now—dozens of them, scores of them, even hundreds of them. Of the four principal ship building rivers of the country every available foot of adjoining land has a ship more or less completed over it. Nearly engine works are turning out motive power for the vessels at a tremendous rate. Ship builders of various sorts—men, women, boys, girls, all are working at top speed to beat the Germans.

The rivers are over hung with smoke; blast furnaces are glowing everywhere; streaks of red go back and forward in the rolling mills and through it all on these busy rivers there is a roar of automatic riveters, the clash of sledges on steel plates and the throbbing of ponderous machines that punch holes in plates an inch thick which at times truly is deafening. So great is this noise at places on banks of the Clyde that to talk is necessary to place the mouth to the ear.

Just now the builders of ships are rushing through work on countless destroyers, cruisers, other naval ships that must remain for the present as "mysteries." They too, are working at a tremendous rate completing merchant ships, of which there appear to be hundreds. Some are large and some are small. Some are being built for private owners, some for the government. Especially fast work is being done on the merchant ships as the government and the builders are anxious to increase British tonnage by building standard vessels, of which many are even now under construction, many having been launched.

These standard ships, builders agree, will greatly enlarge the output of tonnage. In the first place, it was pointed out, construction has been simplified, all parts of hulls, engines, everything, are standard and may be used where first needed. Here, for instance, 35 sizes of steel sections were used in the construction of ordinary ships. The standardization process had reduced this number to eight. So far all the standards, as they are called, have been named after flowers, the word war preceding the name of the flower, such as "war roses," "war thistles," "war poppies." But for the name it would be impossible to tell that they are standards. They look just like the ordinary cargo carrying vessels, not so much superstructure and wide decks upon which a heavy load may be carried. Their engines are powerful enough to drive them through the seas at a rate slightly over that of the ordinary cargo carrier. And then all will be well armed when they set out to bring materials and supplies to the British Isles from foreign countries.

It is quite possible that within the next few months every port in the United States will have seen one or more of these standards for some of them already are in the water and making ready to perform the duties that have been cut out for them. The Germans during the early days of the war tried their best to destroy the yards of the Tees and the Tyne and the Wear. In one shop behind a mass of roaring machinery, there is a big brass plate which was placed there by the company in honor of more than a score of employees who gave up their lives on the spot when a Zeppelin bomb crashed through the roof and exploded. On any river they will point out to the visitor where bombs from the Zeppelins have dropped before the British did away with the menace, at least in that section of the country. The Zeppelins do not even try to reach the yards any more. It would be suicide for them to make the attempt.

FACE PEELING EASY—
BLONDE OR BRUNETTE
The blonde's complexion fades early, because her skin is extraordinarily thin and fine," says Mrs. Lina Cavallieri. "The brunette's, as a rule, is the reverse. The skin is thicker and has a tendency to an oily appearance."
For either the faded blonde's skin or the brunette's oily or sallow complexion, the best remedy is ordinary mercurized wax. Used every night, this will give one an entirely new complexion within about a week's time. The wax gradually peels off the worn, mottled skin, and all its defects, a little each day, without affecting the delicate under-skin in the least. The latter will have the exquisitely beautiful glow of youth.
May readily lose ten or fifteen years from her age, so far as appearance goes, by a course of treatment. The wax, procurable at any drug store, is applied like cold cream.

MAYO BROTHERS GIVE FORTUNE TO COLLEGE

(ASSOCIATED PRESS TELEGRAM)
Minneapolis, Sept. 14.—The board of regents of the University of Minnesota yesterday ratified by unanimous vote the permanent agreement making the Mayo Foundation at Rochester the absolute property of the University to be used perpetually for higher medical, education, research and investigation.
Securities totalling \$1,650,340, representing the fortunes of Doctors Will J. and Charles H. Mayo were turned over to the Universities.

CATARRHAL DEAFNESS MAY BE OVERCOME

A simple, safe and reliable way that calls for no ugly trumpets, phones or other instruments.

To be deaf is very annoying and embarrassing. People who are deaf are generally much more sensitive on this subject. And yet many deaf folks carry around instruments that call attention to their infirmity. Therefore people who are hard of hearing, who suffer from head noises, or who are actually deaf from catarrhal trouble, will be glad to know of a simple receipt that can be easily made up at home for a few cents cost that is really quite efficient in relieving the disagreeable deafness and head noises caused by catarrh.

From any drug store get one ounce of Parment (double strength) about 50c worth. Take this home and put it in a simple syrup made of 1/4 pint of hot water and four ounces of ordinary granulated sugar. Take a tablespoonful four times a day.

This treatment should by tonic action reduce the inflammation in the middle ear that a catarrhal condition would be likely to cause, and with the inflammation gone the head noises, headaches, cloudy thinking and that dull feeling in the ears should gradually disappear.

Anyone who suffers from catarrh, catarrhal deafness or head noises should give Parment a trial. It is pleasant to take and is quite inexpensive. T. J. Evans can supply you.

TEDDY RIDES IN 'PANE DRIVEN BY LIBERTY MOTOR

Minneapolis, N. Y., Sept. 14.—Colonel Roosevelt gained yesterday the distinction of being the first civilian to make a flight in an airplane propelled by the new Liberty motor. The flight was made from the Hempstead aviation field and for a half hour the machine, piloted by H. J. Blakely, an army instructor, attained a speed varying from 90 to 110 miles an hour, reached an altitude of 5000 feet.

The colonel arrived at the aviation field just as Blakely was "tuning up" the motor for a test flight, and he immediately asked to be permitted to go.

The former president climbed into the airplane and they were off. They flew over Camp Mills, where the "Rainbow" division is assembled, and to Garden City, where Blakely executed a "spiral."

When the airplane landed, the colonel patted Blakely on the back and told him how immensely he had enjoyed the experience.

METHODIST EDUCATOR DEAD.
Philadelphia, Sept. 14.—The Rev. Dr. George W. Lutz, D. D., one of the accredited intellectual leaders of modern methodism, and known as "the church builder of methodism," died at his home here late last night after a long illness. He was 65 years old.

A WANT AD IN THE ADVOCATE SOLVES THE SERVANT PROBLEM

TRAIN NATIONAL ARMY IN ART OF THROWING BOMBS; CAMP SHERMAN NOTES

(Associated Press Telegrams) Camp Sherman, Chillicothe, Sept. 14.—Baseball players and particularly pitchers, probably will earn their badges of honor on French battlefields as bomb throwers. But they have a lot to learn in bomb throwing that will be wholly different from baseball throwing. Perhaps it may develop a new "delivery"—that mythical thing of the spring baseball training camp. One never can tell.

But bomb throwing, regardless of baseball prowess is to be taught every man at Camp Sherman just the same as if he never saw a baseball. The collegiate champion pitcher will have nothing on the blue-eyed clerk from the hostelry for men department. True, he may prove to be a better bomb "chuck" than the clerk as time passes, but the army is going to presume that he never pitched a baseball just as it presumes that the clerk never heaved bombs.

Bomb throwing is overhand pitching in a certain sense. But it is now merely throwing. Bombs are timed at four seconds. When preparing to toss them into enemy trenches, a little "trick" is to be set free. Then, Mr. Bomber must cling to his death weapon three seconds. That gives him a second to let go at the enemy for a perfect explosion in his midst.

Every private and most of the officers at Chillicothe's military camp will get into the game. They must learn to be bomb throwers as well as good marksmen and good bayonet wielders.

The National Army Will Do!

That's the verdict of the regular army officers—the old-timers of bronzed cheek, thin hip and the fellows who seldom say or do things unless they mean just what they say or do.

The first wonderful feature of the new army being assembled here, in the view of these grizzled veterans, is the high standard of men represented in the line officers—the young captains and lieutenants who came to Chillicothe less than a month ago from Fort Benjamin Harrison, where they were schooled three months in army life and work.

They are a wonderfully fine bunch of fellows. That doesn't mean alone that they are nice to talk to and associate with. It means the army version—clean cut, of military bearing and appearance, thick-skinned and does physically and mentally equipped for just the sort of work they are now buckling down to.

There was much discontent and much complaint from a great number of applicants who failed to be admitted to the officers' training camp. They thought they didn't get a "square deal." But it takes only a day at Camp Sherman to bring one to the realization that the army officers who selected these young line officers did the job a la Uncle Sam. They did it without a serious deviation from "just right." They got men and real men!

The "folks back home" who have seen their boys off to the training camp to become soldiers need have no fear about the type of men who will lead their sons, brothers and lovers into the world war. When an old-time army officer, a man who for years has looked down with no little scorn upon civilian "soldiers"—says in no uncertain terms that these new officers, these young fellows from Ohio's youth are all right, you can take their word for it.

And these youngsters know their business, too. That three months training at Ft. Benjamin Harrison certainly did the business of making bankers, professors, professional men, collegians and others into soldiers. They have with their knowledge, a snap, enthusiasm, vim and go that makes the civilian wonder.

The second feature of the National Army as seen here, both by the visitors at the camp and the officers in charge, is the "high grade" of men of the selective service army. The first bunch of Ohio men now in camp is the best looking outfit for an army America has ever known, officers say. So far, they are for the greater part men with high school educations or better. They are quick and eager to learn; enthusiastic, willing and typical of the type the world pictures as "the American."

The regular army officers at the camp are unanimous that the National Army is going to be the most wonderful of armies from the standpoint of high type of officers and men the world has known.

There are some things in the business of an army that most people never know or hear about. Among them is the detective force. There are sleuths and some very keen ones at the service of the division commander here, Major General Chas. The secret police at Camp Sherman is said to be playing a part in the clean-up of disorderly places in and near Chillicothe.

The Third regiment of the Ohio National Guard, now a federal unit, has been the police force of Camp Sherman during construction of the camp. Colonel R. L. Hubler's men wear arm bands on which are the letters "M. P." meaning military police. In the big department are detectives, sergeants, lieutenants and all the other officers of the metropolitan police force. Even the duties are similar. Traffic police—men are included to direct traffic of the long and continuous strings of motor trucks, officers' motors, material wagons and other vehicles that make a continuous double stream of traffic from camp to town.

Men with cameras, including many newspaper photographers, are finding the business of getting pictures at the camp more and more difficult. Passes, passes, passes they must have. Expectations are that an order will be issued soon prohibiting cameras from the grounds.

When the leading hotel in Chillicothe opened a cabaret it was something wholly new to the quiet little city on the Scioto. Many of the townspeople, as well as army folk, patronize it. The other night two

women in a party brought their babes in arms. Having no place to care for them, they hit upon a scheme. The babies were taken to the check room, a negro check boy handed out a couple of coupons and the babies were checked besides hats, coats and the like. They got along all right while the mothers enjoyed the novelties of metropolitan Chillicothe.

25 Years Ago

(From Advocate, Sept. 14, 1892.) William McLaughlin, a line repairer for the Fire Alarm Telegraph Company was instantly killed in Columbus, yesterday.

Mr. and Mrs. George Johnson are visiting Mrs. Johnson's father, Mr. J. M. Putnam of Coshocton.

Among those who went to the state fair today were Messrs. Abraham Flory, C. F. Burner, J. M. Maylone, Mr. and Mrs. Richard Shide, John Anko and son.

John McNamara, well known coal dealer, dropped dead this morning while driving up Third street.

The following marriage licenses have been issued John Hammock and Polly Arnold, Lovet J. Feasel and Lizzie McDonald, Chas. R. Kocken-dorfer and Carrie Hagy, Wm. Burdick and Mrs. Martha A. Pier.

15 YEARS AGO

(From Advocate, Sept. 14, 1902.) George Sprague is confined to his home with illness.

John E. Davis and Miss Julia Nuxall were married at the home of the bride's sister, Mrs. John Wells of Williams street, last evening.

Joseph Pugh is here from Rich-

mond, Va., for a week's visit at his old home.

Born to Mr. and Mrs. H. M. Close of Eleventh street, a son, September 11th.

The Harmonious club met at the home of Mr. Wm. Shamp, Tuesday afternoon.

Mrs. W. H. Mazy entertained yesterday in honor of her guests Mrs. Jessie Hill and Miss Mary Hill of Dayton.

The Woman's Relief Corps entertained last week with a picnic at the home of Mrs. William Dayton.

Doctor Tells How To Strengthen Eyesight 50 per cent In One Week's Time in Many Instances

A Free Prescription You Can Have Filled, and Use at Home

Philadelphia, Pa. Do you wear glasses? Are you a victim of eye strain or other eye weaknesses? If so, you will be glad to know that according to Dr. Lewis there is real hope for you. Many whose eyes were failing say they have had their eyes restored through the principle of this wonderful free prescription. One man says, after trying it: "I was almost blind; could not read at all. Now I can read everything without any glasses and my eyes do not water any more. At night they would pain dreadfully; now they feel fine all the time. It was like a miracle to me." A lady who used it says: "The atmosphere seemed hazy with or without glasses but after using this prescription for fifteen days everything seems clear. I can even read fine print without glasses." It is believed that thousands who wear glasses can now discard them in a reasonable time and multitudes more will be able to strengthen their eyes so as to be spared the trouble

and expense of ever getting glasses. Eye troubles of many descriptions may be wonderfully benefited by following the simple rules. Here is the prescription: Go to any active drug store and get a bottle of Bon-Opto tablets. Drop one Bon-Opto tablet in a fourth of a glass of water and allow to dissolve. With this liquid bathe the eye two to four times daily. You should notice your eyes clear up perceptibly right from the start and inflammation will quickly disappear. If your eyes are bothering you, even a little, take steps to save them now before it is too late. Many hopelessly blind might have been saved if they had cared for their eyes in time.

Note: Another prominent Physician to whom the above article was submitted, said: "Bon-Opto is a very remarkable remedy. Its constituent ingredients are well known to eminent eye specialists and widely prescribed by them. The manufacturers guarantee it to strengthen eyesight 50 per cent in one week's time in many instances or refund the money. It can be obtained from any good druggist and is one of the very few preparations I feel should be kept on hand for regular use in almost every family." It is sold in this city by T. J. Evans and other druggists.

New Designs In Men's & Young Men's Fall Suits & Overcoats That Will Be The Real Favorites - Ready Now!

Discriminating men who want the correct style in clothes should step into our store and see the new fall displays. You'll find many new ideas in designing and making that are sure to win your approval. D. A. R. WILL ERECT
HOTEL AT CAMP FOR
KIN OF DRAFT MEN

(ASSOCIATED PRESS TELEGRAM)

Camp Sherman, Chillicothe, Ohio, Sept. 14.—The erection of a hostess house at Camp Sherman by the Ohio Daughters of American Revolution, as announced last night in Columbus, will be an added attraction to the greatest military barracks Ohio has ever known. It will prove a convenience to both the selective soldier and his kin.

The hostess house or hotel will cost \$15,000 and will be built on a site furnished by the government. The purpose of the project is to provide quarters for mothers, wives and sisters when they visit their soldier relatives at Camp Sherman.

It is understood other organizations will be asked to erect similar buildings at the camp.

Officers at division headquarters today suggested that the next forty per cent. of drafted men who will start pouring into camp Sherman Sept. 19 bring with them at least one suit of heavy underwear.

The experience of the men now here, who went through several very cool days this week, caused the suggestion to be made.

Complaint has come from some of the new troops that new blankets issued to them are not heavy and that they have suffered at nights from the cold. One explanation given by officers is that the men are not accustomed to sleeping in quarters where ventilation is required as it is at military barracks.

Issue of part of uniform outfits to the men means they no longer will be forced to confinement within the camp but can get passes for visits outside and in Chillicothe. Regulations prohibit those not in uniform from leaving camp because of the strict military rule forbidding sale of liquor to soldiers.

THEIR EVANGELISTIC FUND

(ASSOCIATED PRESS TELEGRAM)

Atlantic City, N. J., Sept. 14.—The \$40,000 war fund of the permanent committee on evangelism of the Presbyterian church in the United States of America was doubled at a meeting here of the executive committee. The first sum appropriated last May has already been expended.

Several hundred seminary and college men have been installed at cantonments and are working in co-operation with the Young Men's Christian Association. The Presbyterian chaplains are being provided with Bibles, books of prayer, and comforts for distribution to the soldiers. The work is progressing satisfactorily, Dr. George Mahey of Philadelphia, the secretary, declared.

"LARGEST BECAUSE BEST"

U. S. NAVY STRONGER

IN MEN AND SHIPS

(ASSOCIATED PRESS TELEGRAM)

Annapolis, Md., Sept. 14.—The remarkable development of the navy in the last year was described by Secretary Daniels in an address at the naval academy today to the graduating ensigns of the naval reserve. He credited President Wilson with giving the initial impetus to the movement that has resulted in a great expansion of the service.

The graduates, 174 in number, are members of the corps of reserve naval officers who have just completed a three-months' intensive course of instruction to fit them for duty aboard ship or on shore.

"The impulse that has made possible our rapidly-expanding navy," declared Mr. Daniels, "came from a speech made by President Wilson in St. Louis on the third day of February, 1916, when he declared 'there is no other navy in the world that has to cover so great an area of defense as the American navy, and it ought, in my judgment, to be in comparably the most adequate navy in the world.'"

"I am not publishing a military secret when I say that while the increase in personnel in the past few months has far surpassed the increase in material, there are three times as many ships in commission today as there was six months ago; and that ships and more ships, from enlarged and ever-enlarging shipyards are coming to afford a place on naval craft to the thousands of patriotic young men who have crowded into the navy since the call."

BISHOP I. W. W. RETURN.
Columbus, N. M., Sept. 14.—More than 200 of the men departed from Bishop, Ariz., July 12, left the detention camp here yesterday and there remain approximately only 100 in the camp last night. Many said they intended to return to Bishop to get their belongings and to see their families. Many Mexicans and Americans from the camp crossed the border to Palomas, Chihuahua, opposite here.
